Telescopic Folding Table Instructions

Our portable telescopic table is sturdy and durable, the height can be adjusted to 4 levels (11.5", 15.7", 17.7", and 19.7"). The bearing capacity is about 55 lbs. It's widely used indoors and outdoors (Office, study, camping, entertainment, sports games, etc.).

Installation Steps

1. To open the table, use your thumb to open the latch on both sides.
2. Open the table.
3. Unfold the table leg and fasten the triangle bar.

4. Insert two sidebars and fix the table.
5. To adjust the height, stretch out the hole to fix the desirable height.
6. Hang the storage net on the hook under the table (Optional).
7. Ready for use.
8. You can carry it with your hand by the long strap.
9. Other uses.
