Overview

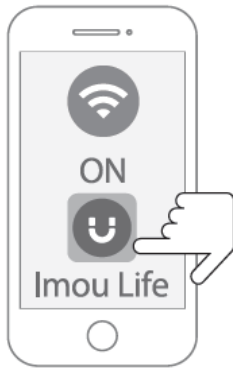

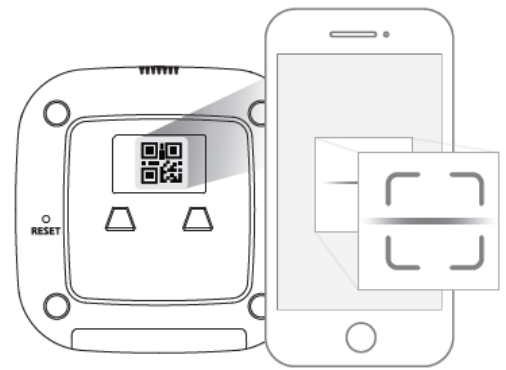

Set Up the Device

1. Get Imou Life App

Scan the QR code below or search for "Imou Life" in the app store to download and install the app.

If you already use the app, make sure that you are using the latest version.

2**3****4**

Pairing Setup

- Method 1 Wired Pairing

Connect the device to the power supply socket and then connect it to an Ethernet cable.

- Method 2 Soft AP Pairing

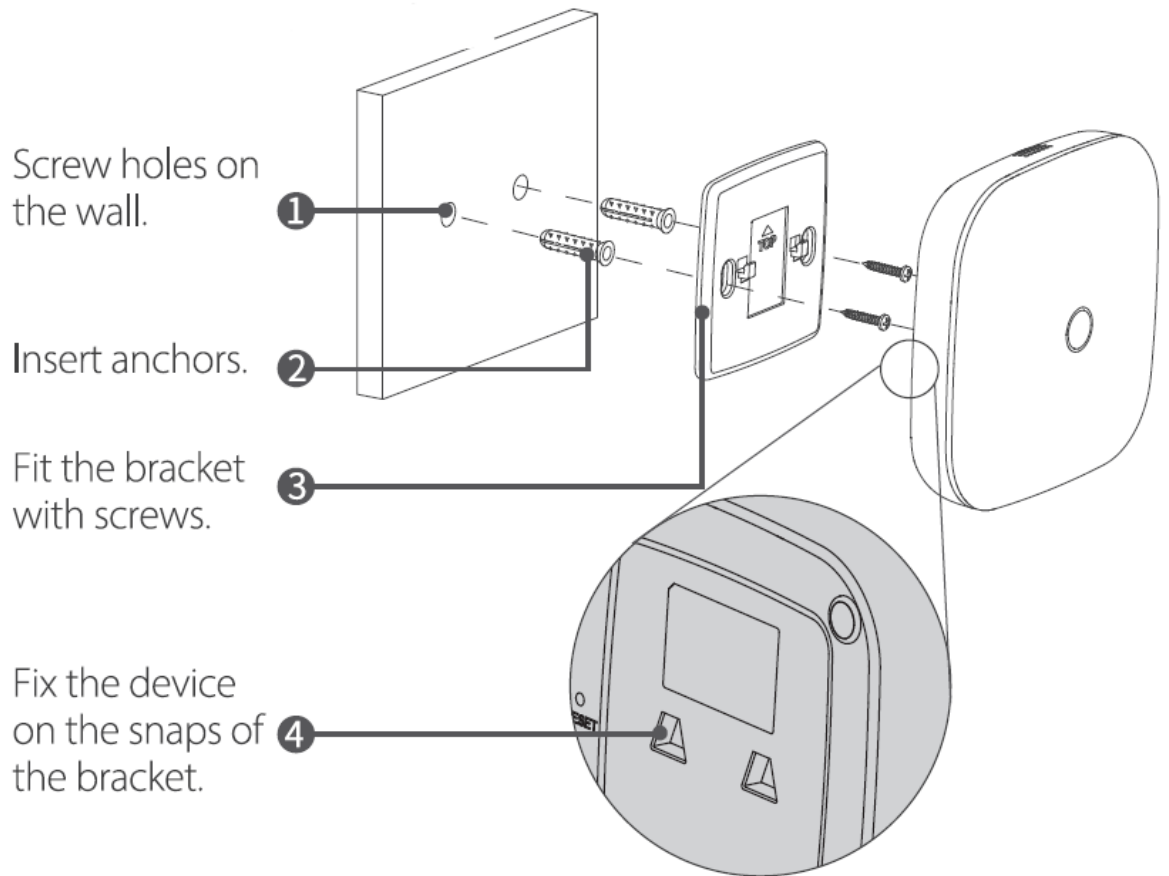

Press the function button on the front of the device until the LED flashes blue fast.

LED Indicator Patterns

- LED Indicator Device Status
- Flashing red fast Alarm/malfunction
- Flashing red Offline
- Solid red Powering on

- Operating Temperature: -10 °C to +55 °C (+ 14 °F to 131 °F)
- Operating Humidity: 0-95%RH, no condensing
- Installation Method: Desktop mount, wall mount
- Dimension: 124.8 x 124.8 x 34.0 mm (4.91 "x 4.91" x 1.34")

Troubleshooting

What can I do if I fail to pair the device?

Please make sure that you have entered the correct Wi-Fi password. The signal of Wi-Fi is strong. The device is connected to a 2.4 GHz Wi-Fi. Check your router whether it is working properly. You can set the router to 802.11 b/g mode.

Why am I not receiving push notifications from the Imou Life app?

The reasons might be:

Your devices have yet to be set up or the sensors have not been enabled. Your devices are offline. The device's battery ran low.

How can I reset the device?

Power on the device and use a pin to press and hold the reset button for 5 s and release until you hear beep once. Reset is done when the LED indicator flashes red.
