1. Power

On the Camera Connect the camera to power. You can choose wireless or wired network connection. Since the camera is Nonfeatured, you can also connect it to a PoE device such as a PoE switch with an Ethernet cable to transmit both power and data (see part 1),

2. Get the Lou Life App

Scan the QR code on part 2 or search for 'Yimou tire to download and install the app. Create an account and log in.

3. Set Up the Camera

Scan the QR code on the body of the device or on the cover of this guide with the app, and then follow on-screen Instructions to complete the setup (see part 3).

4. Install the Camera

Make sure the mounting surface is strong enough to hold three times the weight of the camera. For detailed installation process, please see

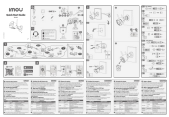

Part 4

| LED Status | | Device Status |
|-------------|-------------|-----------------------------|
| Green | Flashing | Ready to set up the device |
| | Solid | Working properly |
| Red | Flashing | Network disconnected |
| | | Failed to set up the device |
| | Solid | Booting |
| | | Device malfunction |
| Green & Red | Alternating | Updating firmware |
| Off | / | Power off |
| | | LED turned off |

If you need to reset the camera, press and hold the reset button for 10 s. The LED turns solid red when the camera is booting.
