IndiaMART DG-10 Synchronization Control Panel

CONTROL PANEL DG-10

STANDARD COMMANDS

Driver Volume
Press the first time: the display blinks and shows the pre-set volume, the other press changes the volume.

Telephone call control
Press the green for 2 seconds to start a phone call, press the red for 2 seconds to close it.
To adjust the telephone volume.
Green short press: the right display blinks and shows the pre-set volume. Press Co-driver + and - to adjust the phone volume also during a call. This operation doesn't effect the intercom volumes.

Left display
When any button is pressed the display shows:
'S' for Stage mode,
'R' for Road mode

Right display
When any button is pressed the display shows the setting of cancellation mode (0..3)

Co-Driver Volume
Press the first time: the display blinks and shows the pre-set volume, the other press changes the volume.

Digital active noise cancellation mode
Press the first time: the left display shows 'd', and the right display shows the pre-set noise cancellation mode.
0 = digital cancellation off.
1 = digital cancellation minimum
2 = digital cancellation medium
3 = digital cancellation maximum
The second press changes the noise cancellation mode (0..3).

Stage/Road
A short press changes between Stage and Road mode.

	Stage	Road (2)
Intercom	Active	Active
Videocamera OUT	Active	Active
Radio	NO	Active
Phone	NO	Active

RCA OUT (Red)
