Introduction

1.1 Light Keys System

Light Key wellness system is a healing modality that helps the individuals to heal their body, life and being. The system consists of a set of high vibrational keys, practices, protocols, processes and frequencies. This system is channelled by Nirmala Raju (Also known as Nila or Nimi)

1.2 Advanced Light Matrix Transmutation Grid

In the basic class, the practitioners learnt how to create a simple Light Matrix Transmutation Grid that employs the elements of the universe to transmute the energy behind limitations into joyful manifestations. The process was purely for self-help. In the advanced class, you learn to make Grid for your clients and add more elements of the universe to contribute for faster manifestation.

1.3 Status matrix

> It is very common to ignore the changes that have already happened if there is any fixation of specific outcome. Acknowledging even the small changes brings more. Filling in the following table at weekly interval will help in sensing the improvements. Rate each item on a scale of 0-10 based on how happy you are in that part of life:

Description	Day 1	Day 8	Day 15	Day 22	Day 29	Day 33
Financial Health						
Physical energy						
Health						
Relationship						
Emotional Health						
Self esteem						
Fill anything						

Preparing the Advanced Transmutation Grid

2.1 Get prepared

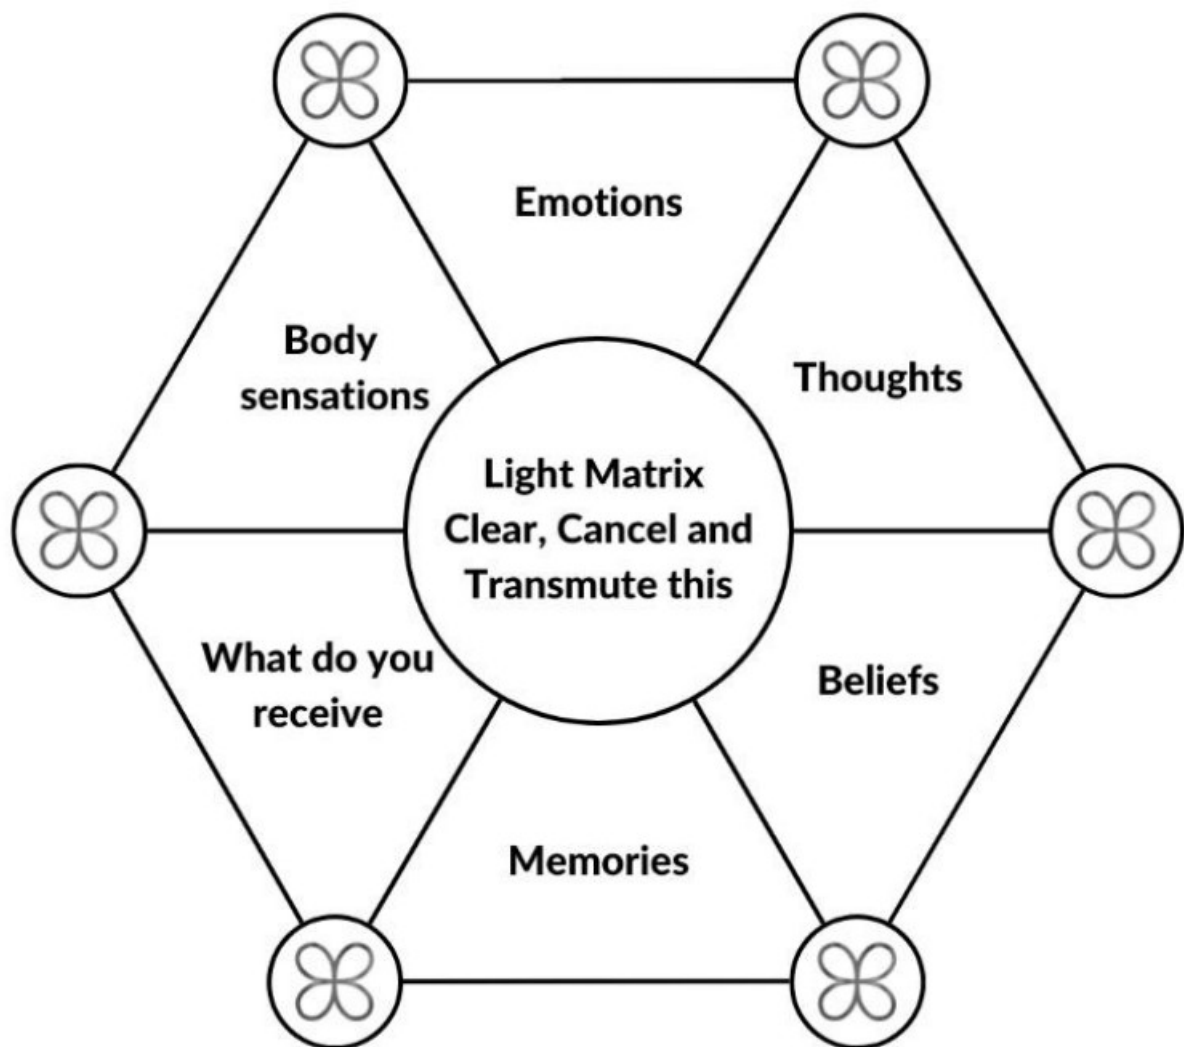

1. Call Lotus Love Frequency to get present. If the receiver is attending the session in real time, you can flow to them as well.
2. Invoke Vortex of Light on you and release all the pre-conceived notions & expectations of you or the receiver of the grid.
3. Invoke Freedom Pyramid of purple light on you and on the client to filter out external influence.

4. Invoke the vortex of Golden Ascension frequency on you, if you are doing this grid in the absence of the receiver. Otherwise just flow Golden Ascension Frequency through the receiver. This will help you/receiver to gain more awareness.

2.2 Grid Preparation

2.2.1 For self/for Receiver with their participation

1. Get a plain sheet of paper (any colour but without lines) and energize the chart with Golden Ascension Frequency to bring out the truth & increase the vibration.
2. Place the sheet in landscape position and draw a circle at the centre of it. (Any ink is fine. Please avoid pencil.)
3. Write 'Light Matrix clear, cancel and transmute this' inside the circle.
4. Draw a hexagon over the circle with space in between the two shapes as shown in the sample grid.
5. You can name the grid in any way for identification. You can write this anywhere on the sheet. Example: Name of the receiver + Issue/area of life + Date: SarahBusiness23May22. This is an optional step.
6. There are 6 main contributing factors to the limitations. Ask the following questions to bring out the energy and write down the responses within the hexagon. If you choose, you can separate the hexagons into 6 segments as shown in the sample grid and write responses to each question within a segment.
 - a) What are the prominent emotions arising when you think about the problem?
 - b) What are the sensations in the body? Where are you feeling them?
 - c) What are the memories that surface? Who are all associated with this?
 - d) What do you believe about this issue? What beliefs are causing this issue?
 - e) What thoughts arise in your head? What statements are you making about this problem?
 - f) What are you receiving from this issue? If this problem disappears what would you be doing that you are avoiding now?
7. Draw a circle at each corner of the hexagon and fill it with a colour (with Crayons / felt pen / water colour, etc) and/or a frequency. (i.e., you will be energizing the little circles with a light key frequency. You can use clustered fingers to do this). Tap into your awareness to decide on the colour and frequency (you can use any number of colours/frequencies in the grid but use single colour and single frequency per little circle). If in doubt, just fill each circle with either master key or kindness key instead of colour/frequency

8. Time to write down what you like to transmute the limitation into. Ask the following questions and list down the 6 prominent responses on each face of the hexagon:
 - a) How would you like to feel about this?
 - b) What would you like to create instead?
 - c) What's the opposite of these limitations?
9. Be in the vortex of light and energize your hand(s).
10. Make spirals of light with the energized hand over the grid.

Release any attachment you have with the receiver. You can use Golden Ascension Frequency to do this.

2.2.2 For a Receiver in their absence

2.2.2.1 Permission

Doing the grid with receiver's participation will yield the best results. For some reason, if your receiver is not in a position to participate, please ensure that you get their permission – just ask them to say Yes out loud verbally. (Even tiny babies can communicate)

If you are unable to get permission verbally under unavoidable circumstances, say out loud, “..... (name), I am preparing this grid on your behalf with highest intention. I acknowledge that your freewill and choice are final. I apologize if this offends you in any way”. Send waves of kindness to them before you start the grid.

2.2.2.2 Grid Preparation

Your awareness plays a major role when you perform absent healing. If you are unable to trust you/your awareness, you are likely to feel stuck.

Doing an awareness development meditation is recommended before doing the grid in absence.

1. Ask the 6 questions and write down the responses that pop into your awareness. (Step 6)
2. For step 8, write down generic creations such as vibrant health, oneness, prosperity, abundance, joy, bliss etc.

instead of specific creations unless you are able to get awareness into what the receiver really likes to create.
Please avoid projecting your wishes on them even if they are your family members

2.3 Notes

1. The grid can be left in a place where there is natural light. Does not have to be in the presence of the receiver.
Works remotely.
2. You can send the grid electronically or handover the original sheet. Won't make a difference.
3. Grid can be destroyed any time if you have the awareness that the work is done. (If you have sent the electronic copy to the receiver, you can destroy the original. Otherwise, ask the receiver to inform when the grid is to be destroyed) However, leaving it for more than 90 days may not be a contribution.
4. The questions in step 6 and 8 are just guidelines. You need not follow them as they are. Feel free to use your own method to bring out the energy behind limitations & desires
5. If you are doing an in-person session, the receiver can write the responses for steps 6 and 8 directly on the grid. All the remaining steps should be performed by the practitioner.
6. Sometimes, the outcomes of the grid become irrelevant after a few days of the grid preparation. The grid works in a very deep level and the receiver will be becoming aware of their authentic desires. Please feel free to destroy the grid at this point
7. The changes may occur very differently than you/receiver expect. Just be in allowance. Universe works in mysterious ways beyond mind can comprehend.
8. No age restrictions for receiving from the grid.
9. For children who cannot articulate the responses to questions in step 6 and 8, you need not follow the questions. Strike a conversation and observe their energetic responses and write them down (their body language, words, etc.)
10. Please feel free to enhance the grid with any additional tool in your kit. However, please do not over do.
Awareness is the key

Guidance on the session for Clients

1. You are not authorized to teach these processes to your clients, even if you are certified as a practitioner. If you like to teach, you have to become a certified facilitator. Please write to team@infinitehealing.co.uk to register your interest
2. If you are not certified, you are not authorized to do a grid for others. Please ensure that you take necessary actions to complete the certification process, if you like to do grids for others.
3. Please call the frequencies / vortices / commands silently while working with the client.
4. Do not promise any specific outcomes to the clients because the choice is always theirs.
5. One grid per person to start with is recommended. As they get accustomed to the changes in life, it can be increased to 3. More than that could be overwhelming.
6. If you or the clients experience any distress after preparing the grid, use waves of kindness abundantly. A JBP session with kindness key will also help. If symptoms persist, please ask them to seek appropriate professional help. Sometimes, burning the grid will also release the distress.
7. Trust & follow your awareness during the session.
