F&Q:

1. a. Why is there no video output?

1. Please make sure your USB-C source devices support video output.
2. Please check the connection is good.
3. Please use a standard HDMI cable.

2. b. Why is there no audio output from HDMI port?

1. Please make sure that there is audio output function on the monitor.
2. Please set the external monitor as the default audio output device.

3. c. Why some mobile can not use USB3.0 or card reader?

Make sure your mobile USB-C support OTG.
