Technical specifications

Power supply voltage	PREVIDIA-C-REP 19 / 30 V
Stand-by current draw	110 mA
Current draw during mains failure	80 mA
Maximum current draw	130 mA
Operating temperature	-5°C / 40°C
Dimensions	210 x 132 x 32mm
Weight	330g

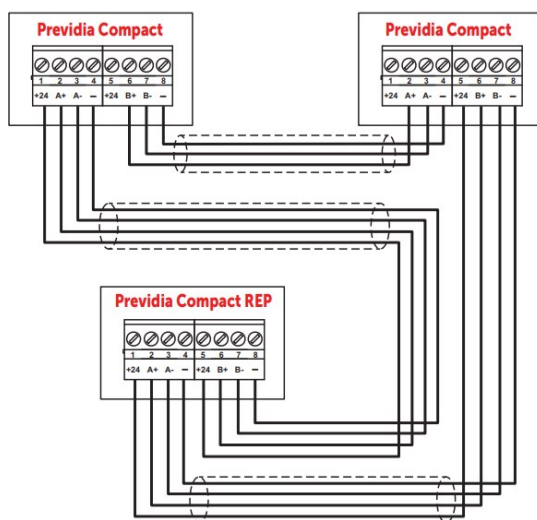

EN IEC 62368-1

Isolation class		I
Terminal type	+24/A+/A-/-, +24/B+/B-/-	ES1, PS2
	Ethernet	ES1, PS1
	USB	ES1, PS1

Mounting

Hornet+ network connection

Wiring the repeater using an external power supply

EN54:

The power supply device must comply with EN54-4 normatives

WEEE Informative notice regarding the disposal of electrical and electronic equipment (applicable in countries with differentiated waste collection systems)

The crossed-out bin symbol on the equipment or on its packaging indicates that the product must be disposed of correctly at the end of its working life and should never be disposed of together with general household waste. The user, therefore, must take the equipment that has reached the end of its working life to the appropriate civic

amenities site designated to the differentiated collection of electrical and electronic waste. As an alternative to the autonomous-management of electrical and electronic waste, you can hand over the equipment you wish to dispose of to a dealer when purchasing new equipment of the same type. You are also entitled to convey for disposal small electronic-waste products with dimensions of less than 25cm to the premises of electronic retail outlets with sales areas of at least 400m2, free of charge and without any obligation to buy

Appropriate differentiated waste collection for the subsequent recycling of the discarded equipment, its treatment and its environmentally compatible disposal helps to avoid possible negative effects on the environment and on health and favours the reuse and/or recycling of the materials it is made of.
