INIU BI-B64 140W Power Bank Charger

Introduction

The INIU BI-B64 140W Power Bank Charger. This advanced power bank is made to meet the needs of modern tech users with its high-capacity charging, multiple output ports, and sleek design. With a robust 25,000mAh capacity, it ensures that your gadgets stay powered throughout the day. The power bank features fast charging capabilities, allowing you to quickly recharge computers, smartphones, and other high-power devices. Its multiple ports, including USB-A, USB-C, and Micro USB, provide versatile charging choices. Additionally, the compact and portable form makes it easy to carry around. The digital LED display shows the leftover battery percentage, and built-in safety features protect against overcharging, overheating, and short circuits. Trusted by over 38 million users, INIU ensures safe and efficient charging. Let's study its detailed specifications, usage, care, upkeep, and troubleshooting tips.

Product Overview

- power button
- Type-C1 Input/Output
- Type-C2 Output
- Type-A Output
- LED Power Display

Specifications

Specification	Details
Capacity	27,000mAh / 99.9Wh
Size	7.23.51.0in / 183.8926.5mm
Weight	22oz / 624g
Input	
	Type-C1: 5V=3A, 9V=3.0A, 15V=3.0A, 20V=5.0A, 28V=3.5A (100W Max)
	Type-C1 (PD3.1): 5V=3.0A, 9V=3.0A, 12V=3.0A, 15V=3.0A, 20V=5.0A, 28V=5.0A (140W Max)
	Type-C2 (PD3.0): 5V=3.0A, 9V=3.0A, 12V=3.0A, 15V=3.0A (45W Max)
	USB-A: 5V=3.0A, 9V=2.0A, 12V=1.5A (18W Max)
Output	
	Type-C1 + Type-C2: 100W Max + 45W Max (145W Total)
	Type-C1 + USB-A: 100W Max + 18W Max (118W Total)
	Type-C2 + USB-A: 24W Total
	Type-C1 + Type-C2 + USB-A: 100W Max + 24W (124W Total)

Understanding the Power-Button Actions for LED Power Display Modes

Button Behavior	Display Mode Switching
Press for 5 Seconds	Switch between Pro & EZ Modes
Double-Click (when in the Pro Mode)	Toggle USB Output Power Display

NOTE:

All the LED power display modes controlled by the power-button actions mentioned above only apply when the power bank is connected to a device.

Features

- **High Capacity:** 25,000mAh capacity for multiple charges on your devices.
- **Fast Charging:** 140W output allows quick charging of laptops and other high-power devices.
- **Multiple Ports:** Equipped with USB-A, USB-C, and Micro USB ports for versatile charging options.
- **Compact Design:** Sleek and portable design for easy carrying.
- **LED Display:** Digital LED display shows remaining battery percentage.
- **Safety Features:** Built-in protection against overcharging, overheating, and short circuits.
- **Wide Compatibility:** Supports a range of devices including smartphones, tablets, and laptops.
- **INIU SAFE Fast Charge Pro:** Trusted by over 38 million global users, using only the highest-grade materials.
- **Magnetic Charge:** Built-in 1500Gs strong magnets for firm attachment to iPhone 12/13/14/15 series, enabling easy snap and charge.
- **Extra Power:** 10,000mAh capacity adds 2X extra power to your iPhone, offering extended usage time.

- **PD 20W Wired Charging:** Delivers 20W of power via the USB-C port for fast charging, 3.5X faster than original chargers.

Charge Your Devices

1. Connect your device to the power bank with a suitable cable, the LED digits will stay on during charging.
2. If your device is fast-charging-capable, connect it to the power bank with a fast-charging cable, and the indicator will stay on during fast charging.
3. When the power level is low, the LED digits will keep blinking.
4. **Note:** The Inis power bank comes with a Pu 3. 140w cable equipped with a t-mark chip. For optimal fast charging, we recommend using a cable that supports 100W or higher with an E-mark chip.

Recharge Your Power Bank

- Connect the power bank to an adapter with a USB-C cable, and it will start to charge automatically. While charging, the last digit will keep blinking until a solid 100% is displayed.
- To recharge it under the fast charging mode, both the adapter and the cable are required to be fast charging supported. The indicator” will stay on during fast charging.
- The charging time varies depending on the Power of the adapter used

Adapter Type	Charging Time
100W Fast-Charge Adapter	1.8h
65W Fast-Charge Adapter	2.3h
45W Fast-Charge Adapter	3.2h
36W Fast-Charge Adapter	4.8h

Warnings

Read all the important information below before using this BI-B64 140W Power Bank.

1. Do not drop, open, disassemble, or crush the product.
2. Do not use the product near a heat source or liquid.
3. Do not use chemical detergents.g, alcohol) to clean the product. Use a soft and dry cloth.
