innuos Pulse Network Player

Product Information

The product is called "PULSE" and it features a rear panel with 9 different ports. The ports are labeled as follows:

Port Number	Port Label
1	AES/EBU Output
2	Digital Coaxial Output
3	Digital Optical Output
4	4x USB 3.0
5	Ethernet input from Router
6	Ethernet AUX
7	HDMI Output (service only)
8	Mains Power Input
9	Mains Power Switch

The product comes with an app called "InnuosSense" which needs to be downloaded to get started.

Product Usage Instructions

1. Download the "InnuosSense" app from the app store on your device.
2. Connect the PULSE to a power source using the Mains Power Input and Mains Power Switch.
3. Connect the PULSE to your router using the Ethernet input from Router.
4. Connect any other devices to the PULSE using the 4x USB 3.0 ports.
5. Use the Digital Coaxial Output, Digital Optical Output, or AES/EBU Output to connect to your audio system.
6. If necessary, use the HDMI Output (service only) for maintenance purposes.
7. Open the "InnuosSense" app on your device.
8. Follow the setup instructions provided in the app to configure your PULSE and start using it.
