## PACKAGE CONTENTS

- USB 3.0 to Ethernet adapter
- Quick Setup Guide

## FEATURES

- A simple way to connect your computer to a network

- Supports up to 1 Gbps network speeds for a fast connection
- Plug and play design requires no additional software for easy setup
- Lets you connect to a wired internet connection
- Backward capability with USB 2.0

## SYSTEM REQUIREMENTS

- Available USB port
- Windows 10®
- macOS 10.12 and above

## SETTING UP YOUR ADAPTER

1. Make sure that your computer is connected to the internet.
2. Connect the USB connector on the adapter to an open USB port on your computer.
3. Connect an Ethernet cable to the Ethernet port on the adapter.
4. The driver installs automatically and the adapter is now ready to use.

## TROUBLESHOOTING

### My computer does not detect the adapter

- Make sure that all of the cables are connected securely and correctly.
- Make sure that the cables are not damaged.
- Try connecting to another USB port.
- Make sure that the driver is installed (if required). Go to [insigniaproducts.com](https://www.insigniaproducts.com) and search for **NS-PCA3E** for drivers and support.

### The driver did not install on my system

- Make sure that the adapter and network cable are not damaged.
- To check the device installation, right-click the Windows icon (  ), then click Device **Manager>Network Adapters**. Look for Realtek USB GbE Family Controller.
- To check the device installation, for Mac click the Apple icon (  ), then click **About This Mac>System Report>Hardware – Ethernet Cards**. Look for **USB 10/10/1000 LAN**.
- Temporarily shut down your firewall and antivirus software in case they are preventing the installation of the driver.
- Make sure that your system is compatible with the driver. See System Requirements for more information.

## LEGAL NOTICES

### FCC Information

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including

interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment on and off, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. ICES-003 This Class B digital apparatus complies with Canadian ICES-003; Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
