PACKAGE CONTENTS

- Ten-Key Numeric Keypad with USB cable
- Quick Setup Guide

SYSTEM REQUIREMENTS

- Windows® 8.1, Windows® 8, Windows® 7, Windows Vista®, or Mac OS 10.X or higher
- One available USB port

KEYPAD FEATURES

Before using your new product, please read these instructions to prevent any damage.

SETTING UP YOUR KEYPAD

- Plug the keypad into an available USB port on your computer. Windows automatically finds and installs the appropriate driver and you can immediately begin using your keypad.

Notes:

- When you install your keypad on a Mac, you must select the ANSI format when prompted by the operating system. The keypad will not work if you select any other format.
- Number lock is not supported on Macs. When the keypad is installed on a Mac, pressing the number keys always inputs numbers and not the navigation functions.

CLEANING YOUR KEYPAD

- Wipe the keypad with a damp, lint-free cloth.

TROUBLESHOOTING

My keypad is not working.

- Make sure that your computer meets the system requirements.
- Make sure that your USB cable is securely attached to the USB port on your computer.
- Try connecting your keypad to a different USB port on your computer.
- Make sure that the number lock is on (the Num Lock Indicator should be lit), or pressing the keys activates the navigation functions of the keyboard instead of numbers (except on a Mac).

SPECIFICATIONS

Dimension (L×W×H): 5.12 × 3.58 × 0.83 in. (13 × 9.1 × 2.1 cm)

Weight: 4.05 ± 0.18 oz. (115 ± 5 g)

Cable length: 39.37 in. (1 m)

LEGAL NOTICES

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits redesigned to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
