Insta360 App RTMP Streaming Tutorial

Specifications

- **Product**: Insta360 App
- **Feature**: RTMP Streaming to Facebook/Youtube
- **Platform**: iOS, Android

Product Usage Instructions

**Scenario 1: Live Streaming to Facebook**

1. Step 1: Open Facebook, click on Home, and go to the 'Live' section.

2. Step 2: Create a live stream room on this page.

3. Step 3: Choose 'Software Live' and copy your 'Stream Key' and 'URL'.

Paste the stream key after the URL to form an RTMP URL like: **rtmps://live-api-s.com:443/rtmp/FB-xxxxxxxx**

4. Step 4: Paste the above **rtmps://live-api-s.com:443/rtmp/FB-xxxxxxx** into the app's live streaming field, click 'Start Live', and you will be able to begin streaming on Facebook.
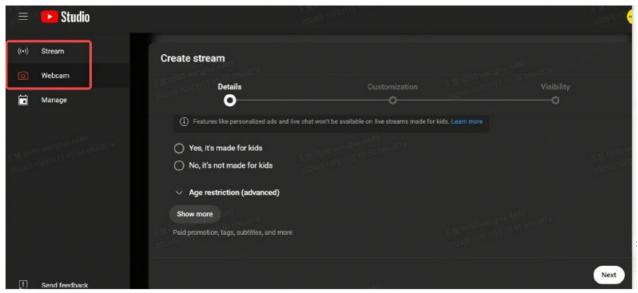

If you have any other questions or concerns, please feel free to contact us!

Scenario 2: Live Streaming to YouTube

1. Step 1: Open Youtube and go to the 'GO Live' section.

2. Step 2: Click on Stream in the top left corner, then copy the stream key and stream URL.

3. Step 3: Paste the stream key and stream URL together into the app's live streaming field in the format:

   rtmps://live-api-s.com:443/rtmp/xxxxxxxx then click "Start Streaming" to begin live streaming on YouTube.

FAQ

1. **Q: How do I troubleshoot if I encounter issues while live streaming?**
   A: If you experience any difficulties during live streaming, please ensure that your internet connection is stable and that you have entered the correct stream key and URL for the respective platform (Facebook or Youtube).

2. **Q: Can I use this feature on both iOS and Android devices?**
   A: Yes, the RTMP streaming feature to Facebook and Youtube is available on both iOS and Android platforms through the Insta360 App.

3. **Q: What should I do if I have additional questions or concerns?**
   A: If you have any other questions or concerns not addressed in the manual, please feel free to contact our customer support for further assistance.
