Insta360 One RS Twin Edition Camera

Names of Parts

- The number of parts varies in different ONE RS Editions. Please refer to the packing list of your purchased Edition.

Core

4K Boost Len

360 Lens

Battery Base

Camera Assembly

Assembly Steps:

1. Align the holes on the side of the lens to the points on the Core, and press the two together until they firmly connect.
2. Align the already assembled Core and lens to the connecting points of the Battery Base. Then press the two parts together until they firmly connect.

• Pro Tip

1. Avoid disassembling or storing a disassembled ONE RS in high-humidity environments, as the camera could be damaged.
2. To remove the Battery Base, push the battery buckle to the right, then pull the Battery Base off.

before you Start

Note: The following instructions use the 4K Boost Lens as an example.

1. Ensure the battery has been assembled properly. Please connect the included charge cable to ONE RS in case of a low or depleted battery.

Note: Please use a 5V/2A power adapter to charge your ONE RS. You can also use the official Insta360 Fast Charge Hub (sold separately).

1. Before use, open the lock cover and insert a MicroSD card.

2. Push the lock buckle to the right to open the lock cover
3. The front side of the Core (without the touch screen)
4. Insert the MicroSD card (with the label facing the front side of the Core)

Note:

1. Please use exFAT formatted microSD cards with the UHS-I bus interface and Video Speed Class V30 rating (exactly this class, neither higher nor lower) to ensure normal recording. The maximum supported storage space is TB. For specific info on supported MicroSD card models, see <https://www.insta360.com/r/onersmicrosd>

2. Be sure to close the lock cover completely to ensure the waterproofing is not affected. Align the circular indication marks as shown to the right. The yellow indication mark near the lock buckle **should be covered**.

3. **Install the Mounting Bracket on the ONE RS before capturing.**

It will reinforce connections between the assembled camera mods, giving added protection and ensuring waterproofing. Please read the “Waterproofing What to Know” manual for more waterproofing precautions.

4. Open the Mounting Bracket To open the frame, press the two red unlocking buttons at the bottom of the Mounting Bracket at the same time.

5. Insert ONE RS into the Mounting Bracket

6. **Close the Mounting Bracket**

Push the open side of the frame down until its connecting points click in place.

7. Installed successfully

Note: The button cover on the Mounting Bracket can be disassembled. If the cover or windproof foam is damaged, it can be removed and replaced. When reinstalling, the buttons should be aligned as in the picture. (Please contact Insta360's official customer service team for the replacement of this part.)

Know Your Insta360 ONE RS

Power On/ Off

When the camera is turned off, press the Power Button to power it on. In standby mode, press the Power Button to light off / on the touch screen. In standby mode, long press the Power Button for 2 seconds to power it off.
