Computer

USB cable for charging

AC turn DC5V USB adapter (charger)

InstaBox

Tips for usage

1. This product is priority for AUX input. When the audio line is inserted, the Bluetooth connection will be cut off.
2. Medium volume, battery usage time is about 8-10 hours; use 5v/la AC to DC 5V USB adapter (USB cable is attached), can be full of electricity within one hour! If using computers, such as output current less than 1A device to charge the speaker, the time will be longer.
3. The effective distance of the Bluetooth connection is about 10 meters. The shielding of metal / cement walls will shorten the distance effectively. If the connection is not smooth, please try to approach the Bluetooth output devices such as mobile phones and computers, and avoid being obstructing by other objects.

Safety warning

1. Please do not touch the diluent chemical reagents.
2. Please do not close to a high intensity magnetic field or electric field..
3. Even if the product has a certain waterproof function, please do not use in the water.
4. When the speaker falls into the water, please remove it in time and do not open until the water evaperates.
5. Please do not hit or hit hard objects.
6. Please do not disassemble or repair or rebuild the loudspeaker.
7. Please handle the packing properly.
