INTELLINET 560764 8 Port Fast Ethernet PoEplus Switch

Connections & Indicators

LEDs

The LED indicators make it easier to monitor the switch and its connections.

NOTE: Ports 1 – 8 can provide power to a connected powered device, and all powered devices should comply with IEEE 802.3at/af.

LED	Color	Status	Status Description
Power	Green	Off	Power Off
		On	Power On
Link/ ACT	Green	Off	No link established.
		On	Valid port connection.
		Flashing	Sending or receiving data.
PoE	Amber	Off	No PD is connected to the port.
		On	The connected device is receiving power.

Ports

All RJ45 ports on the switch support Auto-MDI/MDI-X functionality, so you can use straight or crossover UTP/STP cables to connect the RJ45 ports to PCs, routers, hubs, other switches, etc. Cat5e/6 UTP/ STP cables provide optimal performance; if a status LED doesn't indicate a link or activity, check the corresponding device for proper setup and operation.

Power

Use the included power cord to connect the device (on the rear panel) to an AC outlet. Confirm that the Power LED on the front panel is lit.

Installation

Prior to use, it is recommended that the switch be placed/positioned

- on a level surface that can support the weight of the switch;
- with at least 25 mm (approx. 1”) of clearance for ventilation;
- away from sources of electrical noise: radios, transmitters, broadband amplifiers, etc.;
- within 100 m (approx. 328’) of network devices it’s to be connected to.

Chassis Ground Column (Rear Panel)

Wire the grounding terminal to an earth grounding object to protect equipment from external electrical surges. For

specifications, visit intellinetnetwork.com. Register your product at register.intellinet-network.com/r/560764 or scan the QR code on the cover.

WASTE ELECTRICAL & ELECTRONIC EQUIPMENT

DISPOSAL OF ELECTRIC AND ELECTRONIC EQUIPMENT

(Applicable In The European Union And Other European Countries With Separate Collection Systems) This symbol on the product or its packaging means that this product must not be treated as unsorted household waste. In accordance with EU Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), this electrical product must be disposed of in accordance with the user's local regulations for electrical or electronic waste. Please dispose of this product by returning it to your local point of sale or recycling pickup point in your municipality.

WARRANTY INFORMATION

Datos del importador y responsable ante el consumidor IC Intracom México, S.A.P.I. de C.V. • Av. Interceptor Poniente # 73, Col. Parque Industrial La Joya, Cuautitlán Izcalli, Estado de México, C.P. 54730, México. • Tel. (55)1500-4500 La presente garantía cubre los siguientes productos contra cualquier defecto de fabricación en sus materiales y mano de obra.

REGULATORY STATEMENTS

FCC

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the Federal Communications Commission (FCC) Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instruction manual may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference, in which case the user will be required to correct the interference at his own expense. Any changes or modifications made to this equipment without the approval of the manufacturer could result in the product not meeting the Class A limits, in which case the FCC could void the user's authority to operate the equipment

This device complies with the requirements of CE 2014/30/EU and / or 2014/35/EU. The Declaration of Conformity for is available at:
