INTELLINET 561877 24-Port Gigabit Ethernet Switch Instruction Manual

INTELLINET 561877 24-Port Gigabit Ethernet Switch

Contents

## Instructions

🌐 **Connections & Indicators**

LED	Color	Status	Status Description
PWR	Green	Off	Power Off
		On	Power On
LINK/ **ACT, SFP1, SFP2**	Green	Off	No link established.
		On	Valid port connection.
		Flashing	Sending or receiving data.

LEDs
The LED indicators make it easier to monitor the switch and its connections.
Ports
All RJ45 ports on the switch support AutoMDI/MDI-X functionality, so crossover cables and uplink ports are not needed for connections to PCs, routers, other switches, etc. Cat5/5e/6 UTP/STP cables provide optimal performance; if a status LED doesn't indicate a link, check the corresponding device for proper setup and operation.
Power
Use the included power cord to connect the device to an AC outlet.
Confirm that the power LED on the front panel is lit.
 Placement

Prior to use, it is recommended that the switch be placed/positioned:

- on a level surface that can support the weight of the switch
- with a minimum of 25 mm (approx. 1") of clearance onthe top and sides for adequate ventilation
- away from sources of electrical noise: radios, transmitters, broadband amplifiers, etc.
- where it cannot be affected by excessive moisture

Chassis Ground Column (Rear Panel)
Wire the grounding terminal to an earth grounding object to protect equipment from external electrical surges.

Rackmount

The switch includes brackets and screws for optional rack mounting.

1. Disconnect any cables from the switch.
2. Position a bracket over the mounting holes on one side of the switch and secure it in place with screws.
3. Repeat Step 2 on the other side of the switch.
4. Position the switch in the rack and screw the brackets to the rack.
5. Reconnect any cables

WASTE ELECTRICAL & ELECTRONIC EQUIPMENT

DISPOSAL OF ELECTRIC AND ELECTRONIC EQUIPMENT
(Applicable In The European Union And Other European Countries With Separate Collection Systems)

This symbol on the product or its packaging means that this product must not be treated as unsorted household waste. In accordance with EU Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), this electrical product must be disposed of in accordance with the user's local regulations for electrical or electronic waste. Please dispose of this product by returning it to your local point of sale or recycling pickup point in your municipality.

REGULATORY STATEMENTS

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the Federal Communications Commission (FCC) Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instruction manual may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference, in which case the user will be required to correct the interference at his own expense. Any changes or modifications made to this equipment without the approval of the manufacturer could result in the product not meeting the Class A limits, in which case the FCC could void the user's authority to operate the equipment.

This device complies with the requirements of CE 2014/30/EU and/
