Interactive TECHNOLOGIES CS-3120 CueServer 3 Core D

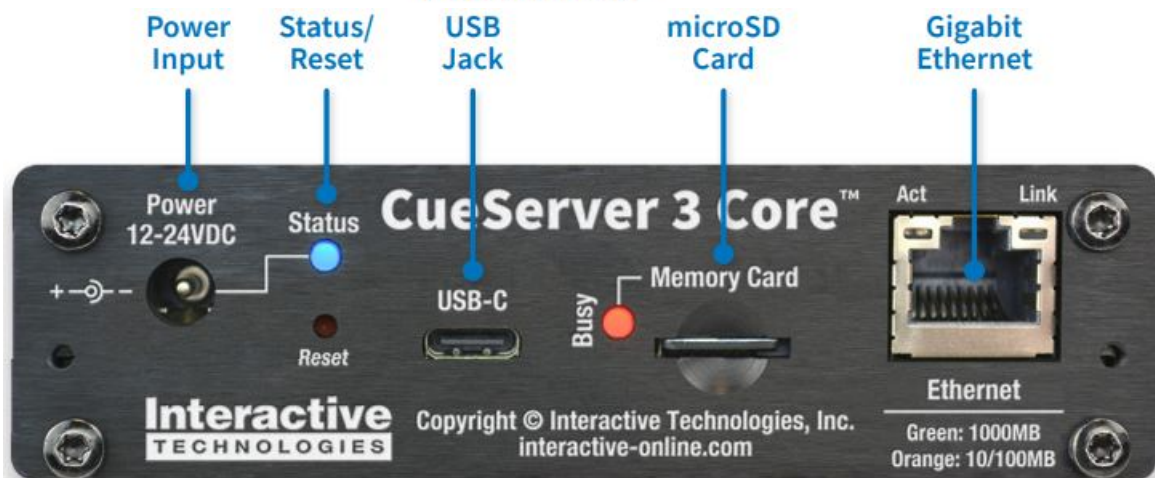

Product Information

The CueServer 3 Core D (CS-3120) is a lighting control system that allows for easy control of DMX lighting fixtures. It features isolated RJ45 DMX ports, a mounting bracket attachment, USB jack, microSD card, and gigabit Ethernet for efficient and reliable communication. The system can be connected to an Ethernet switch or directly to a computer using an Ethernet patch cable. The front panel includes power status/input reset buttons, while the rear panel has Ethernet and DMX ports.

What's in the Box

- CS-3120 CueServer 3 Core D Processor
- Power Supply

Startup Procedure

-  **Connect CueServer to the Network**
Use an Ethernet patch cable to connect CueServer to your Ethernet Switch or directly to your computer.
-  **Connect CueServer to Power**
Use the included Power Supply with CueServer.
-  **Open CueServer Studio on your Computer**
You can download CueServer Studio from cueserver.com.

- **CueServer should appear in the Navigator Window**

CueServer Studio's main Navigator Window searches for and displays all CueServers found on the network.
