INTERLiNE

INTERLiNE 42250018 Ruby Full Spectrum Infrared Cabin

Product Information

Specifications

- **Model:** Ruby corner infrared cabin
- **Material:** Hemlock (spar)
- **Length:** 1278mm
- **Width (depth):** 1270 mm
- **Height:** 1900mm
- **Power Supply:** 230 volts, 50Hz
- **Type of Heaters:** Ruby fiber tube radiator & carbon panel
- **Total Power:** 2400W, 10.5A
- **Switch panel (Back Panel):** 350W x 2
- **Zijpanel (Side Panel):** 350W x 2
- **Kuiten (Calves):** 500W x 2

Product Usage Instructions

Assembly Tips

1. Remove all packaging material and check if the infrared cabin is complete and undamaged before starting the assembly.
2. Assemble the cabin with at least two persons.

3. Check the countersink and hole diameter of the drill holes to prevent damage to the wood.
4. The minimum required clearance height for assembly is 2020 mm.

Required Tools and Equipment

- Screwdriver (set)
- Tape measurement
- Electric drill
- Spiral drill (set)
- Hammer
- Hex key (set)
- Knife
- Ladder
- Spirit level
- Pencil

Assembly Steps

1. Follow the provided assembly manual for step-by-step instructions on assembling the infrared cabin.

Electrical Scheme

Usage Instructions

1. Plug the cabin into a power outlet. The LED indicator light will start blinking on the display.
2. Press the power button to turn on the display and heating panels. The default duration is set to 99 minutes, and the cabin temperature will be displayed. Press the power button again to turn off the heating panels.
3. To set the time, use the arrow keys to adjust the desired duration between 5 and 90 minutes. The set value will flash for 10 seconds and then automatically display the cabin temperature. When the timer reaches 00, the heating panels will automatically turn off. The default time is 99 minutes.
4. Use the menu button to access the MP3 player, FM radio, and Bluetooth features. Long press to turn on/off. Use the volume buttons to adjust the volume. Use the previous/next buttons to change tracks or channels. Long press on the next button to search for channels. Press the play/pause button to play/pause music or mute/unmute in FM mode. Long press on the play/pause button for automatic channel selection and save.

FAQ (Frequently Asked Questions)

- **Q: Who can install and repair this product?**

A: Only qualified installers are allowed to install and repair this product.

- **Q: Can other devices be connected to the same electrical connection?**

A: No, do not connect other devices to the same electrical connection as the cabin.

- **Q: Where should the cabin be placed?**

A: The cabin should be placed indoors on a flat, horizontal, and dry surface.

- **Q: What is the material of the cabin?**

A: The cabin is made of Hemlock (spar) wood.

• **Q: What is the power supply requirement?**

A: The cabin requires a power supply of 230 volts, 50Hz.

• **Q: How many heaters are there?**

A: The cabin has a Ruby fiber tube radiator and carbon panel heaters. The total power is 2400W, with 350W x 2 for the back panel, 350W x 2 for the side panels, and 500W x 2 for the calves.

PREFACE

Thank you very much for purchasing our product.

Please read this manual carefully before assembling it and save it afterwards. Please write down the control box serial number of the cabin as this number will be required in case of repair or order of spare parts.

ATTENTION

- Installation and repair should only be done by a qualified electrician.
- Check the power supply rating and make sure the grounded outlet is correctly connected before installation.
Use original parts only. Do not share the outlet with any other appliances.
- When not in use, turn off the cabin's power unit.
- Locate your cabin indoors and on a flat level and dry surface.

DANGER

- Heaters shall not be subjected to water spray; shower heads shall not be installed within the infrared cabin.
Covering the radiator causes a fire hazard due to overheating. Do not cover the heaters.
- Keep flammable or easily combustible materials/objects (eg. towels) away from the radiator at all times.
- Do not touch the radiator during and shortly after use as a burning hazard exists due to hot parts.
- The light bulb heats in use. If the bulb needs to be changed, unplug the cabin and let the bulb cool down before changing it.
- Should the electrical connection get damaged, it must be replaced. Either by the manufacturer or by a licensed electrician.

WARNING

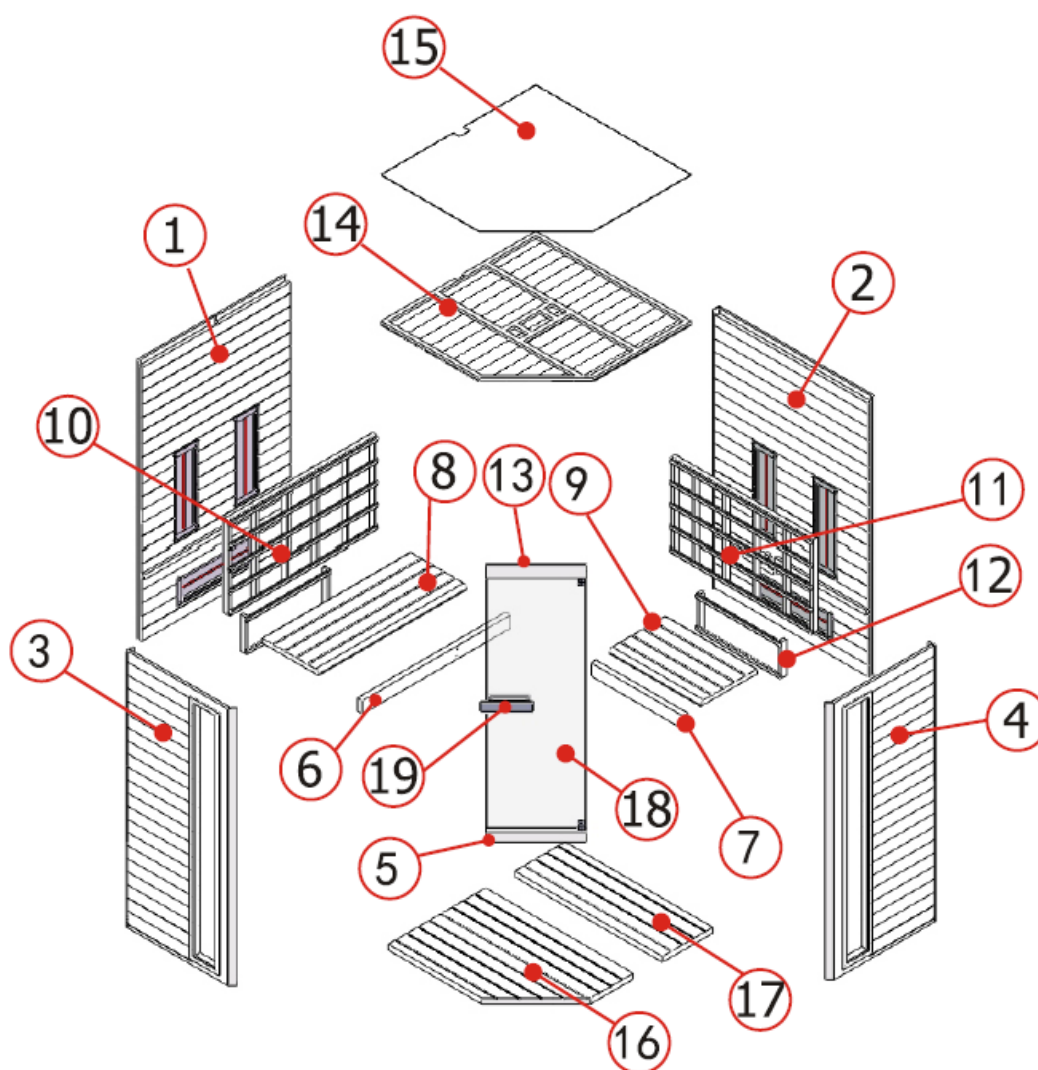

- If you suffer from illness or other health-related problems, especially heart conditions or circulatory disturbances or if you take medication, you should consult a doctor before using the infrared cabin. Children and frail persons should never be in the cabin without supervision.
- If you feel uncomfortable while using the infrared cabin, stop immediately and consult with your doctor.
- Never go to a hot infrared cabin if you have taken alcohol, strong medicines or narcotics.
