INTERNATIONAL DEVELOPMENT LV30RM01A06 Remote Control

REMOTE CONTROL

POWER

Controls light.

"ON" - turns light ON. "OFF" - turns light OFF.

DIMMER

Adjusts light to either 25%, 50% or 100% brightness level.

CCT

Adjusts color temperature of light to 3000K, 4000K or 5000K

PERFORMANCE MODES

Standby Performance - Up to 100 LM Motion Activated Performance - Up to 2000LM

TIMER MODE

Set runtime to1H-3H-5H, to deliver up to 200LM brightness Note: Under timer mode, DIMMER function is inoperable.

BATTERY

Requires 2 AAA Battery (included)

REMOTE IS INTENDED FOR DRY LOCATIONS

- The remote control will operate the street lights within 45 feet (13m) distance.
- Install batteries and point the remote towards light to control the light.
- Use the ACTIVATED MODE, TIMER MODE, DIMMER, or CCT functions by pointing the remote control towards the light and selecting the desired function.

Warning:

Do not mix old and new batteries and do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium, nickel metal hydride, or lithium etc.) batteries.

FCC

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. this device may not cause harmful interference, and
- 2. this device must accept any interference received, including interference that may cause undesired operation.

NOTES: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment
