**INTEX®**

**INTEX 56493NP Ocean Reef Inflatable Pool**

### **Specifications:**

- Product Name: EN16927 Inflatable Pools and Play Center Items
- Language: English
- Dimensions: 4.875 X 6.3
- Manufacture Date: 04/24/2023

### **Product Usage Instructions**

#### **Important Safety Rules:**

Please read the safety rules carefully to prevent serious injury or death, especially for children. Always refer to the model name or number on the packaging and keep it for future reference.

#### **Set-Up:**

1. Find a flat, level surface free of sharp objects.
2. Depending on the size, use 2 or more adults for setup.
3. Setup time may vary from 10 to 20 minutes, excluding water fill time.

#### **Filling with Water:**

1. Fill the inflatable pool with water just below:
  - to. The horizontal line indicator is printed on the inside of the pool's wall, or

- b. The overflow holes indicator on the inside of the pool's wall, or
- c. The first top air chamber ring.

### **Instructions for Products with Water Sprayers and Other Accessories:**

Attaching the water sprayer:

1. Locate the sprayer connector (A).
2. Attach the sprayer connector (A) to a garden hose (B) by threading the sprayer coupling onto the garden hose. Tighten securely.
3. Turn the water on slowly to allow gradual filling and adjust the spray as desired.
4. If provided, thread the adapter (C) to the sprayer connector (A) and insert the garden hose (B).

### **FAQ**

- **Q: How many adults are recommended for setup?**
  - A: Depending on the size of the product, 2 or more adults are recommended for setup.
- **Q: How should I fill the inflatable pool with water?**
  - A: Fill the pool just below the specified indicators on the inside of the pool's wall.

### **IMPORTANT SAFETY RULES**

Please read it carefully and keep for future reference. Failure to follow these warnings and instructions can result in serious injury or death to users, especially children. Refer to the model name or number stated on the packaging and/or product. Packaging must be read carefully and kept for future reference. See the product for additional warnings.

### **WARNING**

- Keep children under supervision in the aquatic environment – drowning hazard.
- Only for domestic use. Only for outdoor use.
- Children can drown in very small amounts of water. Empty the pool when not in use.
- Keep children in your direct sight, stay close, and actively supervise them when they are in or near the pool and when you are filling and emptying this pool. When searching for a missing child, check the pool first, even if child is thought to be in the house.
- Empty pool completely after each use and store the empty pool in such a way that it does not collect water from rain or any other source.
- Keep unsupervised children from accessing the pool by installing fencing or other approved barrier around all sides of pool. State or local laws or codes may require fencing or other approved barriers. Check state or local laws and codes before setting up pool.
- Do not dive or jump into this pool. Diving or jumping into shallow water can result in a broken neck, paralysis, or death.

Carefully read, understand, and follow all information in the user manual before installing and using the mini-pool. These warnings, instructions, and safety guidelines address some common risks of water recreation, but they cannot cover all risks and dangers in all cases. Always use caution, common sense, and good judgment when

enjoying any water activity. Retain this information for future use.

### **Non swimmers safety**

- Continuous, active, and vigilant supervision of weak swimmers and non-swimmers by a competent adult is required at all times (remembering that children under five are at the highest risk of drowning).
- Designate a competent adult to supervise the pool each time it is being used.
- Weak swimmers or non-swimmers should wear personal protection equipment when using the mini-pool.
- When the mini-pool is not in use, remove all toys and appealing objects from the water and the coping to avoid attracting children to the pool. For mini-pools with inflatable protruding accessories, such as basket, flag or loop, deflate and/or remove them to avoid attracting children to the mini-pool.
- When the mini-pool is not in use, remove all toys or other objects from its surroundings that could be used by a child as a device to facilitate access into the mini-pool (e.g. chairs, big toys, etc.).

### **Safety devices**

- It is recommended to install a barrier (and secure all doors and windows, where applicable) to prevent unauthorized access to the mini-pool.
- Personal protective equipment, barriers, pool covers, pool alarms, or similar safety devices are helpful aids, but they are not substitutes for continuous and competent adult supervision.

### **Safety equipment**

- Keep a working phone and a list of emergency phone numbers near the mini-pool.

### **Safe use of the pool**

- Encourage all users especially children to learn how to swim
- Learn Basic Life Support (Cardiopulmonary Resuscitation – CPR) and refresh this knowledge regularly. This can make a life-saving difference in the event of an emergency.
- Instruct all mini-pool users, including children, what to do in case of an emergency
- Never dive into any shallow body of water. This can lead to serious injury or death.
- Do not use the mini-pool when using alcohol or medication that may impair your ability to safely use the pool.
- When pool covers are used, remove them completely from the water surface before entering the pool.
- Replace water regularly according to manufacturer recommendations and, depending on hygienic conditions, its cleanliness, its clarity, and its odour, or if any debris or stains are present in the mini-pool. Use of chemicals in mini-pools without water circulation may result in direct contact with the chemicals or in areas of high chemical concentration resulting in injury to the users.
- If chemicals are occasionally used to reduce the frequency of water replacement, follow chemicals manufacturer instructions closely (especially never use more than recommended), assure the appropriate mixing of chemicals to avoid possible personal injuries and store chemicals out of reach of children.
- The use and installation of any electrical appliances around mini-pools shall be in accordance with the national regulations.

- Where applicable, remove any means of access from the mini-pool and store it out of reach of children whenever the mini-pool is not in use.
- Use of accessories not approved by the mini-pool manufacturer (e.g. ladders, covers, pumps, etc.) may result in risks of injuries or property damages.
- Keep all electrical lines, radios, speakers and other electrical appliances away from the pool. Do not place pool near or under overhead electrical lines.
- Observe and follow the warnings and safety signs on the pool wall.

#### **General:**

- Pool and pool accessories are to be assembled and disassembled by adults only. No tools are required for the assembly.
- Do not set up the pool on a slope or inclined surfaces. The area where the pool is to be set up must be absolutely flat and level, and at least 2m away from any structure or obstruction such as a fence, garage, house, overhanging branches, laundry lines or electrical wires.
- The pool location must allow constant supervision of children in or around the pool.
- The area shall facilitate drainage of the pool water after each use and/or for long term pool storage.
- Do not install the pool on mud, sand, soft or loose soil condition, deck, platform, balcony, concrete, asphalt or any other hard surfaces.
- Do not lean, straddle, or exert pressure on the inflatable wall or side wall as injury or flooding could occur. Do not allow anyone to sit on, climb, or straddle the sides of the pool.
- Protect all pool occupants from recreational water illnesses by keeping the pool water clean. Don't swallow the pool water. Practice good hygiene.
- Remove all hard, sharp and loose objects such as jewelries, watches, buckles, keys, shoes, hairpin, etc from users before entering the pool.
- Pools are subject to wear and deterioration. Properly maintain your pool. Certain types of excessive or accelerated deterioration can lead to pool failure. Pool failure might cause large quantities of water to release from the pool.
- Do not modify this product and/or use accessories not supplied by the manufacturer. There are no serviceable parts.

#### **Set up**

Depending on the size of the product, 2 or more adults are recommended for setup. Set up time may vary from 10 to 20 minutes excluding water fill time.

1. Find a flat, level lawn surface that is free and clear of stones, branches or other sharp objects that may puncture the pool liner or cause injury. Certain types of grass such as St. Augustine and Bermuda, may grow through the liner. Grass growing through the liner it is not a manufacturing defect.
2. Move the product (in its package) to the selected site before inflating – do not inflate the product and drag it since it may result in leaks or damage.
3. Slowly unfold the product and inspect the product for rips, tears or punctures. Do not use if the product is damaged.
4. Lay the pool out as evenly as possible and close all drain plugs and/or exhaust valve caps if any.

5. Inflate the bottom air chamber first with a manual air pump designed specifically for inflatable products, and then the next chamber or chambers in sequence.
6. Fill the product and component such as arch or canopy (if included) with air until the surface is firm to the touch but not hard. If there is any straining at the seams, the product is over-inflated. If any seam begins to strain, immediately stop the inflation and release air to reduce the pressure until signs of stress on the seam are gone. Do not over-inflate or use high pressure air compressor since it may result in seam leaks.
7. Close and recess all inflation valve cap(s) securely by pushing down firmly on it
8. Depending on the type/model of the inflatable pool, slowly fill with water:
  - a. just below the horizontal line indicator printed on the inside of the pool's wall, or
  - b. just below the over-flow holes indicator on the inside of the pool's wall, or
  - c. just below the first top air chamber ring.

NOTE: Some pools feature over-flow holes midway along the wall. This is to prevent overfilling the pool beyond the recommended water depth. There are no plugs, do not cover the over-flow holes. All drawings for illustration purpose only. May not reflect actual product. Not to scale.

#### INSTRUCTIONS FOR PRODUCTS WITH WATER SPRAYER AND OTHER ACCESSORIES (VARY FROM MODELS):

#### Attaching the water sprayer

1. Locate the sprayer connector (A).
2. Attached the sprayer connector (A) to a garden hose (B) by threading the sprayer coupling onto the garden hose. Tighten securely.
3. Turn the water on slowly at first to allow water to gradually fill in. Then adjust the spray as desired.
4. If an adaptor is provided (vary with models), thread the adaptor (C) to the sprayer connector (A) and insert the garden hose (B) into the adaptor (C).

#### Attaching the arch or canopy

1. Place the inflated arch or canopy over the top surface of the inflated pool wall.
2. Make sure the arch base or canopy pillars are securely attached to the top surface of the inflated pool wall.

### **Pool maintenance**

- Inspect the pool at the beginning of each use for holes, leakage, wear and tear and other damages. Never use a damaged pool.
- If applicable, check pins, bolts and screws for rust; splinters or any sharp edges regularly, especially accessible surfaces, to avoid injuries.

### **How to drain your pool, winterizing and long term storage:**

1. Adults shall drain and store the pool. Check local regulations for specific directions regarding disposal of swimming pool water.
2. Remove all accessories, toys, garden hose, etc from the pool.
3. Open the drain valve cap (vary from models).
4. Carefully open the inflation valve caps and/or exhaust valve caps to deflate the air chambers, and slowly push the sidewall inward and down to speed up the drainage of the pool. Slowly lift one side of the pool to drain out the remaining standing water.
5. Re-insert all valve caps afterwards for storage.
6. Be sure pool and all parts are completely dry before folding, let it sit under the sun for an hour.
7. Fold and store the liner and accessories in a dry, clean indoor storage location. The original packing carton can be used for storage.

### **Repair patch:**

A repair patch has been included with the product to repair small leak and holes. Refer to the instructions on the back of the repair patch. For the following model number: 58431, 56441, 57482, 58480, 57471, 57181, 56495, 56493, 58485, 56483, 57495, 58484, 56475, 57192, 57190, 56490, 57478, 58469, 56494, 57180, 58487, 57186, 56493, 58492.
