INTEX®

Intex 66705E Pillow Rest Raised Airbed

Launch Date: \$24.99

Price: March 15, 2005

Introduction

The Intex 66705E Pillow Rest Raised Airbed is the best choice for people who want an easy and comfortable way to sleep, whether they are at home or on the go. For more comfort and ease of use, this twin-sized airbed is 16.5 inches higher than most airbeds and comes with a built-in pillow. The Fiber-Tech inside makes it durable and hard, giving you a supportive sleeping surface that feels like a normal mattress. The mattress has an electric pump built in that makes it easy to blow up and settle down. The mattress can be blown up in three minutes. This blanket stays in place and is more comfy thanks to the waterproof flocked top. The airbed is made to be easy to move and store, so it comes with a carry bag that you can fold up and use. A lot of people can use it because it can hold up to 300 pounds. The Intex 66705E Pillow Rest Raised Airbed is well-made and carefully thought out so you can get a good night's sleep. It's great for when friends show up out of the blue.

- **Color:** Heather Grey
- **Product Dimensions:** 75"L x 39"W x 16.5"Th
- **Material:** Vinyl
- **Weight Limit:** 300 Pounds
- **Item Firmness Description:** Extra Plush
- **Water Resistance Level:** Waterproof
- **Item Package Dimensions (L x W x H):** 14.68 x 12.71 x 6.89 inches
- **Package Weight:** 4.58 Kilograms
- **Item Dimensions (L x W x H):** 75 x 39 x 16.5 inches
- **Country of Origin:** China

- **Warranty Description:** Comes with manufacturer warranty
- **Model Year:** 2013
- **Style:** Twin
- **Sport Type:** Camping & Hiking

Package Includes

- Intex 66705E Pillow Rest Raised Airbed
- Built-In Pillow and Electric Pump
- Carry bag for storage and transport
- User manual

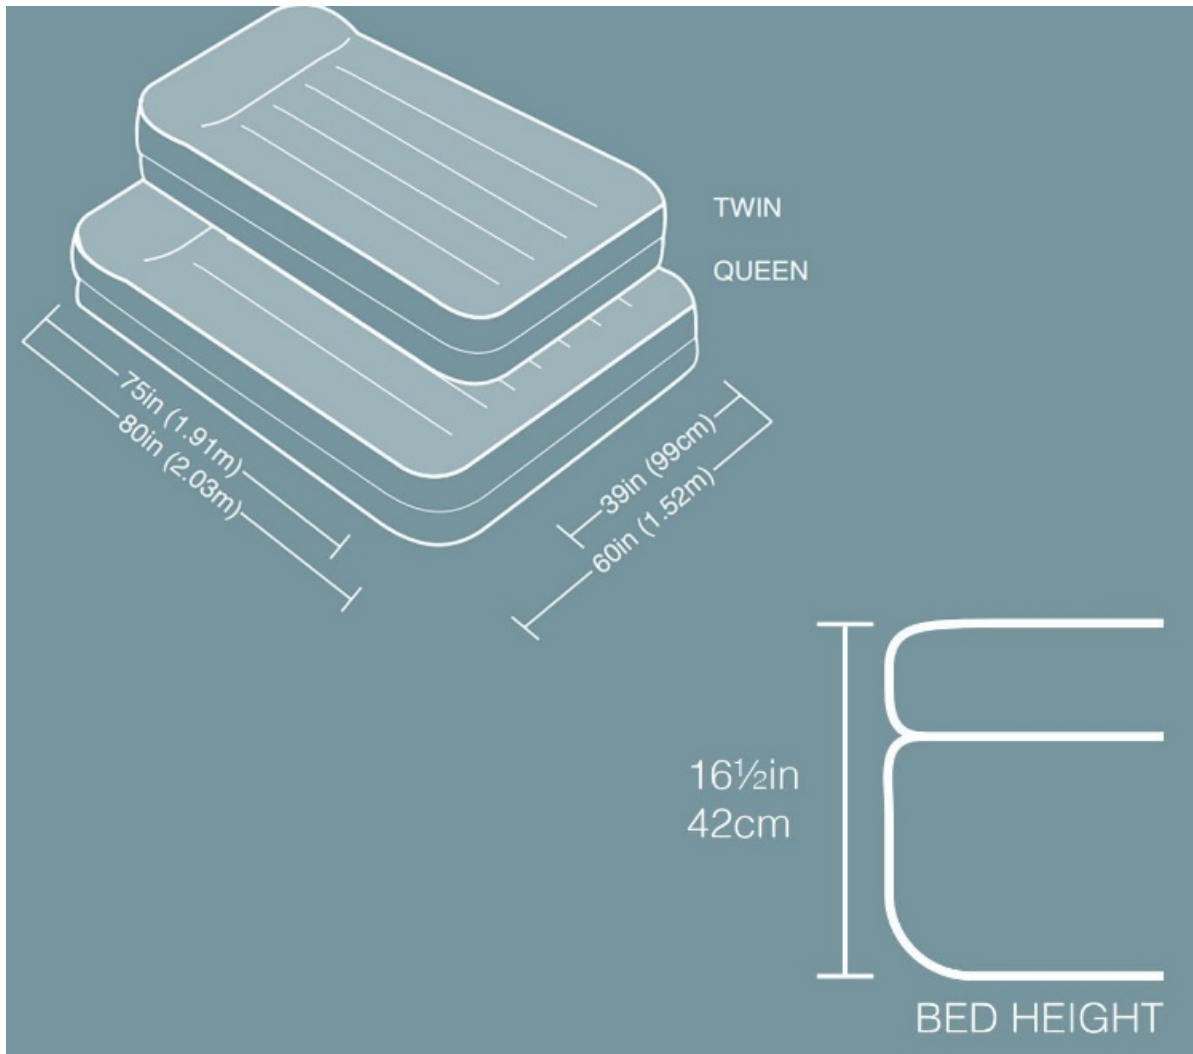

Features

- **Built-in Pillow:** The Intex 66705E Pillow Rest Raised Airbed features a built-in pillow for added comfort and convenience. This design ensures you have a comfortable headrest without needing an extra pillow.
- **Raised Height:** The airbed is raised 16.5 inches off the floor, making it easier to get in and out of bed. This elevated height contributes to a more comfortable and stable sleeping experience, similar to a traditional mattress.
- **Fiber-Tech Construction:** This airbed utilizes Fiber-Tech interior construction, which consists of thousands of high-strength polyester fibers. This construction ensures durability and firmness, providing a supportive sleeping surface that lasts.
- **Built-in Electric Pump:** The built-in electric pump makes inflation and deflation quick and easy. With the touch of a button, you can inflate the mattress in approximately 3 minutes and adjust it to your desired level of firmness.
- **Compact and Portable:** The Intex 66705E Pillow Rest Raised Airbed is designed to be compact and portable.

It folds compactly for storage and travel and comes with a carry bag for easy transport and storage.

- **Waterproof Flocked Top:** The top of the airbed is made of a waterproof flocked material, providing a soft and plush sleeping surface. This feature also helps to keep bedding in place and adds to the overall comfort.
- **Inflatable Twin Airbed:** This model is a standard twin size (39 x 16.5 x 75 inches), making it suitable for fitted sheets and offering a 300-pound weight capacity. The size and design make it ideal for home use, accommodating sudden guests or providing a comfortable sleeping option for travel.

- **Vinyl Beams and Sturdy Construction:** The airbed includes vinyl beams and a double-layered wave beam interior construction, ensuring sturdy and stable support. The durable materials used in construction enhance the longevity and reliability of the airbed.
- **Fitted Sheets Compatibility:** The airbed's dimensions and design allow fitted sheets to tuck in easily, ensuring a snug and secure fit. Indented sides help grip the sheets, preventing them from slipping off during use.
- **Raised Outer Frame:** The raised outer frame provides additional stability and prevents the user from rolling off the bed. This design feature enhances safety and comfort during sleep.
- **3-in-1 Valve:** The airbed is equipped with a 3-in-1 valve for easy inflating and deflating. This valve allows for quick setup and takedown, making it convenient for use in various situations.
- **Nylon Material:** The airbed is made from durable nylon material, which contributes to its sturdy construction and long-lasting performance. The material ensures the airbed can withstand regular use without compromising on comfort or support.

REPAIR KIT

Due to shipping restrictions, glue is not provided. Use PVC or silicone-based glue, which is readily available at

most retail stores. Read and follow the warnings and instructions on the glue package before proceeding with the steps following.

REPAIR INSTRUCTIONS:

- Clean area thoroughly where repair is to be made. NOTE: To allow better adhesion on flocked airbed surfaces, apply some glue to the repair area and rub away the flocked texture until a smooth surface is exposed.
- Cut patch material to size.
- Use only enough liquid cement to wet the back to repair area.
- Press tightly to repair area.
- If article is an inflatable, do not inflate for 12 hours.

Usage

- **Setup:** Place the airbed on a flat surface away from sharp objects. Plug in the built-in pump and turn the dial to inflate.
- **Inflation:** Inflate the airbed to the desired firmness. The built-in pump will automatically shut off once the bed is fully inflated.
- **Deflation:** Turn the dial to deflate. Once fully deflated, fold the airbed and store it in the provided carry bag.
- **Sleeping:** Use the airbed with or without additional bedding for a comfortable sleep.

Care and Maintenance

- **Cleaning:** Wipe the airbed with a damp cloth to remove dirt and dust. Avoid using harsh chemicals or abrasives.
- **Storage:** Ensure the airbed is completely dry before folding and storing it in the carry bag. Store in a cool, dry place away from direct sunlight.
- **Puncture Repair:** Use the provided repair patch or a suitable vinyl repair kit to fix any punctures.
- **Regular Checks:** Periodically check for leaks and ensure the airbed is fully inflated before use.

Troubleshooting

Issue	Possible Causes	Solutions
Airbed Not Inflating Properly	Pump not plugged in or dial not in inflate position	Ensure the pump is plugged in and the dial is turned to inflate
	Blockages in the pump	Check and remove any blockages in the pump
	Punctures or leaks	Inspect for punctures or leaks and repair them
Airbed Losing Air	Punctures or leaks	Check for and repair any punctures or leaks
	Over-inflation causing seam weakening	Ensure the airbed is not over-inflated
Pump Not Working	Pump not securely plugged in	Ensure the pump is securely plugged in
	Power outlet issues	Check the power outlet and try a different one
	Defective pump	Contact customer support for a defective pump
Uncomfortable Sleeping Surface	Incorrect air pressure	Adjust the air pressure to achieve the desired firmness
	Uneven surface or objects causing discomfort	Place the airbed on a flat surface and remove any obstructions

Pros and Cons

Pros:

- **Comfortable:** Provides a comfortable sleeping surface
- **Easy Setup:** Quick and easy to inflate and deflate
- **Durable:** Built to withstand repeated use
- **Affordable:** Priced at \$99.99

Cons:

- **Limited Size:** May not be suitable for larger individuals
- **Noise:** Electric pump can be noisy during inflation and deflation
- **Storage:** Requires a dry, well-ventilated area for storage

Customer Reviews

- **Rating:** 4.5/5 stars
- **Reviews:** "This airbed is so comfortable and easy to set up. Perfect for camping trips!" – Emily
- **Reviews:** "I was skeptical at first, but this airbed really is comfortable. Highly recommend!" – David
