## BEFORE YOU START

### Before you start

- Verify that your router broadcasts Wi-Fi at 2.4GHz.
- If you have a Dual Band router, make sure that the two Wi-Fi networks have different names (SSIDs).
- Place your Dehumidifier near your router to ensure proper connection.
- Verify that your mobile device's data are disabled.
- It is necessary to forget any other around network and make sure the Android or iOS device is connected to the same wireless network.
- Be certain that the Android or IOS platforms operate correct and connect to your selected Wireless network automatically.

### Precautions

#### Applicable systems:

- Requires Android 4.4 or later.
- Requires iOS 9.0 or later. Compatible with iPhone, iPad, and iPod touch.

#### Notice:

- Keep your APP updated with the latest version.
- It is possible that some Android and IOS devices may not be compatible with this APP. Our company will not be held responsible for any issues resulted from the incompatibility.

#### Cautions:

- You might experience a short delay between the screen and the display, this is normal.

- To use the QR code option, the cam of your smartphone or tablet should be 5mp or above.
- Under certain network connections, it is possible the pairing could time out with no connection, if this occurs please perform network configuration once again.
- For improvement purposes, this APP may be updated without any prior notice. The actual configuration process may be slightly different from the one mentioned in this manual.
