Invoxia Cellular GPS Tracker with Free 2-Year Subscription

Get before start

Step 1

Charge the tracker using the provided USB cable to power up the device. We recommend that you fully recharge the device on first use, which will take 80 minutes.

Step 2

Download the Invoxia GPS app

Step 3

Launch the Invoxia GPS app. Follow the instructions to pair your tracker to your phone.

Step 4

Start tracking your belongings.

Need more help with your tracker?

In the app, tap Settings, Help Center or visit support.invoxia.com

If you want to track your bike, we strongly recommend you to hide the GPS Tracker:

- Under the saddle
- Inside an accessory (like a bicycle bag)

Please, note that we strongly discouraged hiding your tracker inside the bike frame, the handlebar, or the seat tube if your bike is not 100% carbon as metal disrupts the normal functioning of electronic systems (Faraday Cage).

Minimum requirements:

An iOS device (iOS 12 or more) or an Android device (Lollipop 5.0 or more). EN: Invoxia hereby declares that this device is in compliance with the Directive 2014/53/EU. The full text of the EU declaration of conformity is available at www.invoxia.com/compliance. ES: Par la presente, Invoxia SAS declara que el localizador cumple con los requisitos esenciales y otras disposiciones relevantes de la Directiva 2014/53/EU. La declaración de conformidad se puede encontrar en: <https://www.invoxia.com/compliance>. Restrictions or Requirements in BE, BG, a, DK. DE, EE, IE, EI, ES, FR, HR, IT, Cf, LV, LT, LU, HU, MT, NL, AT. PL, PT. RO, SI, SK, FI, SE, UK Disposal of Electric & Electronic Equipment. This symbol indicates that this product should not be treated as household waste. Instead hand it over to the appropriate collection point for the recycling of electrical and electronic equipment which will conserve natural resources. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may

cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) Information:

SAR tests are conducted using standard operating positions accepted by the FCC with the device transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value. Before a new device is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by the FCC, tests for each device are performed in positions and locations as required by the FCC. For body worn operation, this device has been tested and meets the FCC RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that contains no metal. Non-compliance with the above restrictions may result in a violation of RF exposure guidelines.
