IPASON BLACK BOX User Manual

www.ipason-europe.com

Dear user,

Thank you for purchasing and using the Ipason BLACK BOX. For your safety and interest, please read this User Manual and all the information provided before you start using the product. The company will not be liable for any physical injuries, property damages, or other losses resulting from failure to follow the User Manual when operating and using the product.

About the User Manual (hereinafter referred to as “the Manual”

1. The copyrights of the Manual belong to the company
2. Trademarks and trade names mentioned in the Manual belong to their corresponding rights holders;
3. In case of discrepancy between the content of the Manual and the actual product, the actual product shall prevail.

If you have any questions about or objections against any content or conditions mentioned in the Manual, please submit within seven days of the purchase your questions or complaints to the company in writing. Forgoing taking such actions will mean that you have understood and accepted all the content in the Manual.

If you encounter any problems during the use of this product, you are welcome to visit our website www.ipason-europe.com/support. The company reserves the right to the interpretation and amendment of the Manual.

Thank you and best regards, Wuhan Ipason Technology Co.,Ltd

Disclaimer

The manual is distributed without warranties, standpoints, or implications of any kind. The company and its employees are not liable to any loss of information or discontinuation of undertaking tasks attributing to the product specification and information mentioned in this Manual. In addition, the product specification and information mentioned in the Manual — including contents about hardware and software — are for your reference only and can be updated at any time without notice.

Introduction

Thank you for purchasing our BLACK BOX. Before using it, please read and preserve this manual carefully.

Warning: This product uses high voltage power supply. Do not open the back cover of the machine without permission. You should ask experienced service personnel for related services.

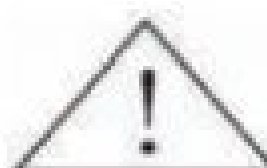

Warning: To prevent fire or electric shock hazard, do not expose the main parts to rain or moisture.

Warning: Do not throw any objects into the heat sink or the opening of the back cover of this product, and do not spill liquid of any kind onto the product.

Note: If the product is placed in a compartment or relatively small space, minimum distances indicated on the diagram to the right should be maintained. Overheating can shorten the product life and may pose a danger.

Note: Do not stand or lean on this product, or press the product with extensive force. Children should be told not to do so.

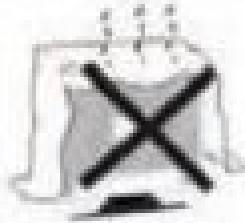

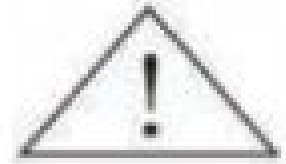

Note: Do not place the product on an unstable rack, shelf, or table edge, as product falling may cause severe injuries to individuals and may cause damage to the product.

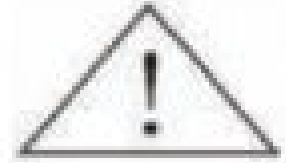

Note: When not using the product, it is recommended to unplug the power cord of the product from the power outlet.

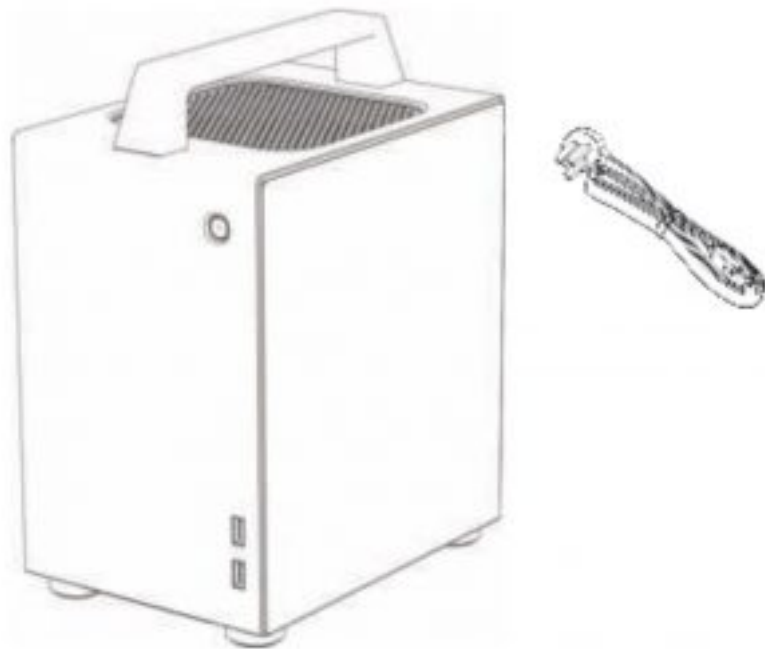

Note: Avoid exposing the main parts of the machine to direct heat sources such as sunlight, and do not place this product on other products that emit heat, such as video cassette players, audio amplifiers, etc. Do not block the ventilation holes of the product. Ventilation is critical for failure prevention for electronic products. In addition, be careful not to step on the power supply.

Safety Indication

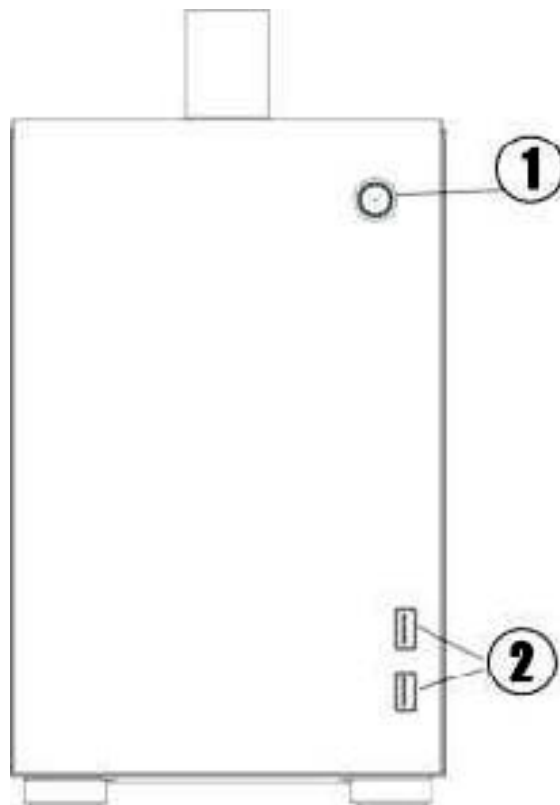

- Do not place the BLACK BOX on an unstable surface or at locations with high risks of product falling off.
- Do not expose the BLACK BOX to an environment of extreme temperature and humidity.
- Avoid exposing the BLACK BOX to direct sunlight and other heat sources.
- Avoid blocking the ventilation openings of the BLACK BOX.
- Do not place the BLACK BOX in any liquids.
- Do not place the BLACK BOX near water.
- Do not put anything inside the BLACK BOX, and do not place any container filled with water on the BLACK BOX.
- In stormy weather (especially when there is lightning), unplug the power cord.
- Do not step on or entangle the power cord.
- Avoid fire or shock by preventing overload of the external connection socket.
- Wipe the BLACK BOX with a dry and soft cloth (without volatiles).
- If your BLACK BOX breaks down, do not repair it yourself, but, contact a professional service person instead.
- Make sure that the BLACK BOX is appropriately placed. If you wish to install it on the wall or hang it from the ceiling, please do so under the guidance of a professional person.
- Do not exposed the device to water droplets or water splashes and “do not put liquid-filled containers on top of the device.
- Unplug the power cord if the device will not be used for a long time.
- **WARNING** This product is a Class A product and may cause radio interference in a living environment. In such cases, the User may need to take practical measures to prevent the interference.

Housing	○	○	○	○	○	○
Middle frame		○	○	○	○	○
Computer screen protector	X	○	○	○	○	○
Monitor	○	○	○	○	○	○
Mainboard	○	○	○	○	○	○
Fan	X	○	○	○	○	○
Speaker	○	○	○	○	○	○
Wires	○	○	○	○	○	○
Power cord	○	○	○	○	○	○
Metal stand	○	○	○	○	○	○
Label/name-plate	○	○	○	○	○	○
User Manual	○	○	○	○	○	○

○)Indicates that the hazardous substance contained in all homogeneous materials of this part is below the limited requirement in the SJ/T11363-2006 standard.

X)Indicates that this hazardous substance contained in at least one of the homogeneous materials of this part is above the limit requirement in the SJ/T 11363- 2006 standard.

When used under the conditions of use described in the Manual, the hazardous and noxious substances or elements contained in this electronic information product shall not leak and cause environmental pollution or severe loss to human health and property for up to 10 years.

Warranty

Dear user,

In order for you to make better use of the product, we provide you with warranties stated below with the warranty card supplied with the product, and we will provide repair, replacement, and return services (the Warranty Services) in accordance with the content and scope stipulated in the Regulations on the Liabilities for Repair, Replacement, and Return on Microcomputer Commodities promulgated by the relevant national authorities.

In the event of product failures within the Warranty Services, you can apply for repair service with the original copy of the warranty card at the place of the purchase (such as a dealer or agent).

Return & Repair Regulation

In case of any problems we suggest to first contact your (local) sales agent or Reseller.

If you have difficulties reaching your sales agent or if you purchased your product directly from Ipason, you can contact Ipason directly at www.ipason-europe.com/support.

1. If within 30 days from the date of your receipt of the product, a performance failure occurs. You can choose to return, replace or repair the product.
2. In case of hardware failure after 30 days up to 3 years after purchase of this product the service&support operator will decide whether to repair or replace the product.
3. If you did not purchased an on-site-warranty service all repairs will be done in-house.
4. Ipason's service&support can only handle hardware issues. We can not serve you with any kind of software issues.

Non Warranty Regulation

In order to protect your legal rights and avoid unnecessary losses, product failures or damages caused by the following reasons are not covered by the Warranty Services, and our company is not obligated to provide free warranty repair:

1. Damage caused by improper use, maintenance or protection by users;
2. Damaged caused by irresistible external factors such as fire, floods, earthquake, etc.;
3. Damage caused by disassembly by unauthorized service providers;
4. Performance indicators or technical parameters meet product design and specification standards
5. Other cases of treatment that do not meet normal use.

Friendly reminder: As the package is required to ensure the security of the product during transportation, we recommend that you keep the package for at least 3 years from the date of signing.

Warranty Card

"This warranty card is an important certificate for requesting warranty service. Please fill it out and keep it with your system documentation.

In case of return of this product, please fill in this form and send it together with the return label."

Packaging

"In the event of a return, please be sure to return the product with its original package, and do not attached any labels on the original packaging. If there are any problems with the original packaging, the manufacturer will not provide a replacement but instead can only offer a repair service.

As products from our store are all electronic products, we would really appreciate it if you would take extra precaution to use shockabsorbing packaging materials.”

Secure your data

“To secure your data, be sure to back up all data that are deemed essential. Our company does not provide data backup or recovery services, nor does it assume any legal liability or responsibility in this regard.”
