

IQUNIX L80 Formula Typing Mechanical Keyboard Manual: Connect & Use Guide

[Home](#) » [IQUNIX](#) » **IQUNIX L80 Formula Typing Mechanical Keyboard Manual: Connect & Use Guide** 

The IQUNIX L80 Formula Typing Mechanical Keyboard is a high-quality keyboard that offers a comfortable typing experience. Whether you're a gamer, programmer, or just someone who spends a lot of time typing, this keyboard is designed to meet your needs. The user manual provides detailed instructions on how to connect and use the keyboard. There are three ways to connect the keyboard to your device: Bluetooth, 2.4GHz, and wired. The manual provides step-by-step instructions for each connection method. Additionally, the manual includes information on the product specifications, function key combinations, LED indicator keys combinations, device charging and battery status, and FCC warning. The keyboard is designed to meet general RF exposure requirements and can be used in portable exposure conditions without restriction. To ensure responsible disposal of the product, the manual also includes information on correct disposal of waste electrical and electronic equipment. For more information on the keyboard and its features, users can visit the official IQUNIX website or follow them on social media.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment- went off and on, the user is encouraged to try to correct the interference by one or more of the following measures

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

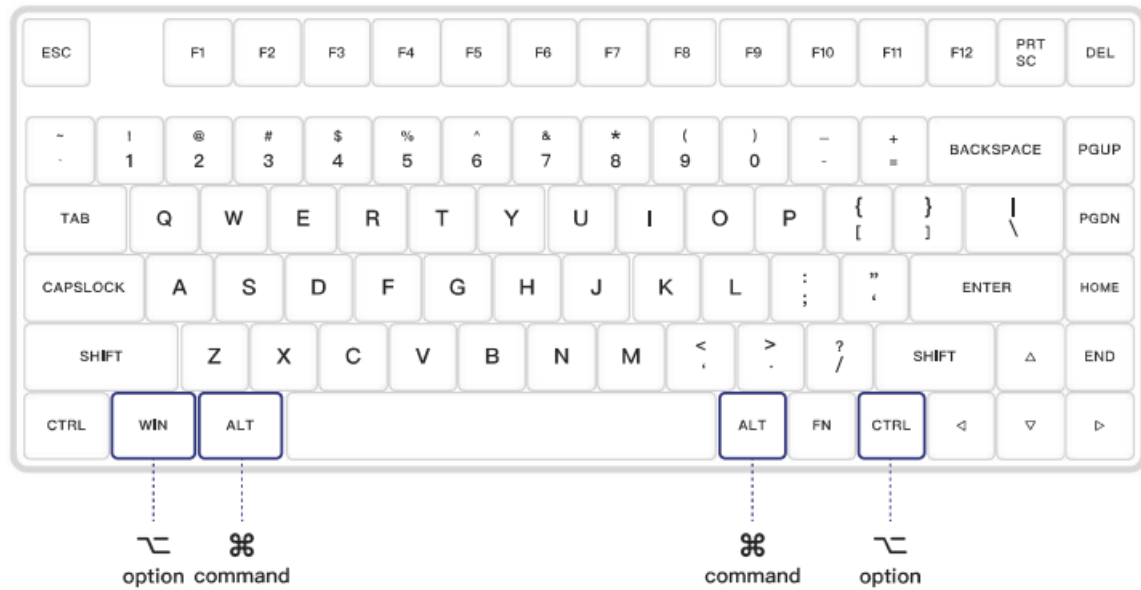

Waste Electrical and Electronic Equipment Information

Correct Disposal of This Product (Waste Electrical & Electronic Equipment) (Applicable in countries with separate collection systems) This marking on the product, accessories, or literature indicates that the product and its electronic accessories should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources. Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling. Business users should contact their suppliers and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.

Mac/ Windows Layout Switch

Hold for 5 seconds to switch the layout between macOS and windows systems.
