### Product Usage Precautions

Before using this product, please read and follow this document and all safety and compliance operation guidelines related to this product carefully.

- Do not use the charger in direct sunlight, rain, or humid environments.

- The charger should be kept away from heat sources, high voltage, water, flammable gases, corrosives, and other dangerous substances.
- In case of fire, use a dry powder fire extinguisher for extinguishing, Using liquid fire extinguishers may pose a risk of electric shock,
- Do not use the charger during thunderstorms or rainy weather,
- Keep the inside of the charger dry, and do not let water, oil, or other liquids enter.
- When charging, please keep away from flammable materials and do not place the charger on a carpet for charging.
- Place the charger on a flat surface and pay attention to insulation and fire prevention when in use,
- Do not touch the metal ends of the charger with your hands or other objects. If foreign objects are attached to the metal ends, wipe them clean with a dry cloth in a power-off state.
- Use the charger in an appropriate ambient temperature (recommended 0°C to 40°C),
- When moving or carrying the charger, do not pull on the charger's power cord,
- Before use, ensure that the charger's interface and surface are dry and free of water,
- Do not disassemble or damage the charger in any way,

## Connecting to a Mobile Phone

Start the Polying software and bring your phone close to the running device to initiate the connection. You can follow the on-screen instructions to tap the button for binding.

## Product Specifications

**AC Input:** 100V --- 240V --- 2.5A 50Hz/60Hz

**USB Type-C1-C6 Output:** 5V --- 3A, 9V --- 3A, 12V --- 3A, 15V --- 3A, 20V --- 3.25A, PPS: 5V --- 21V --- 3A

**USB Type-A1-A2 Output:** 5V --- 2A

**Dimensions:** 140\*56\*59mm

**Weight:** 409g (±20g)

## Product Usage Instructions

### 1. Charging Function:

This product is an AC-input desktop charging station, equipped with six USB-C ports with a maximum output of 65W each and two USB-A ports with a maximum output of 24W each. The total output power can reach up to 200W.

### 2. Timing Charging Function:

You can freely set the start and end times for charging according to your usage habits, ensuring that the charging device is free from overcharging damage, precisely controlling the charging period, managing the battery scientifically, and fully protecting the health and usage experience of your devices. If you want to charge outside the set time, you can long press the touch area of the corresponding output port to unlock the charging function.

### 3. Alarm Function:

The built-in alarm function allows users to enjoy an integrated bedside companion experience. This innovative design perfectly combines the daily necessity of mobile phone charging with a wake-up reminder, saving space

and simplifying the daily routine.  
If the alarm sounds, simply long press any touch area to turn off the alarm,

4. **Wireless Connection:**

Supports wireless connection functions. With the exclusive Polying APP, you can not only monitor battery status and charging progress in real-time but also customize personalized charging plans and up to four alarm activities.

Download Polying APP

Welcome to visit the official website of ISDT at [www.isdt.co](http://www.isdt.co) to learn more about its features and purchase a variety of accessories.  
As product features are continuously updated, there may be discrepancies between the manual you hold and the actual operation. Please refer to the actual features.
