Warnings and Safety Information

WARNING

It is important that only authorized Itronix personnel attempt repairs on Itronix equipment as this might void any maintenance contract with your company. Unauthorized service personnel might be subject to shock hazards on some Itronix equipment if removal of protective covers is attempted. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Internal radios may have individual FCC Identifiers which are not applicable to this PC configuration. Only the FCC Identifier KBCIX260PNLA555BT as shown on the label located at the bottom of the IX260+ Laptop PC is applicable. The IX260+ Laptop PC must not be co-located or operating in conjunction with any other antenna or transmitter than specified in the FCC ID: KBCIX260PNLA555BT filling. The cradle option supports external vehicle-mount antenna for this FCC Identifier (vehicle-mount antenna for use with WAN Radio only).

Safety Information

- This device contains a WLAN radio transmitter. When using the WLAN transmitter, a minimum separation
 distance of 20 cm must be maintained between the backside of the display screen and all users/bystanders.
 The WLAN transmitter should be turned off before carrying the Laptop PC in order to comply with FCC RF
 exposure requirements.
- This device contains a WAN radio transmitter. When using the WAN transmitter, a minimum separation
 distance of 20 cm must be maintained between the external dipole antenna and all users/bystanders. The WAN
 transmitter should be turned off before carrying the Laptop PC in order to comply with FCC RF exposure
 requirements.
- This device contains a PAN radio transmitter. When using the PAN transmitter, a minimum separation distance
 of 20 cm must be maintained between the backside of the display screen and all users/bystanders. The PAN
 transmitter should be turned off before carrying the Laptop PC in order to comply with FCC RF exposure
 requirements.
