IVOXEX

IVOXEX 4-Set Laser Gun

Launch Date: March 10, 2022.

Price: \$260

Introduction

There is a fun laser tag game called IVOXEX 4-Set Laser Gun that kids 8 years and up can play together. It's fun for the whole family and friends because it has different game types like Team Battle, Free-for-All, and Capture the Flag. The guns have a range of up to 100 feet, so fights will be exciting both inside and outside. There are four weapon modes: pistol, laser gun, machine gun, and rocket launcher. Players can change the settings to make the game more interesting. With its safe infrared technology and strong build, the IVOXEX Laser Gun set will give you hours of fun without any harm. Active play, teamwork, and friendly competition are all great things that can come from it.

BREASTPLATE FUNCTIONS

FOUR TEAMS TO CHOOSE FROM

Features

1. Different Game Modes:

There are many fun game modes for the IVOXEX Laser Guns, such as Team Battle, Free-for-All, and Capture the Flag. Because these modes let players use different types of games, every match is different and fun.

2. Options for Changes:

The laser gun's settings, like power levels and game types, are easy for players to change so that the game feels more like them. The settings can be changed so that you can have a unique experience, whether you want to fight or just play for fun.

3. Honest feedback:

The guns and vests have sound and vibration effects that make them feel like they are in real battle. Players will be able to feel the impact when they are hit, and sound effects will make the experience more realistic and exciting.

4. Long-Term:

Players can play laser tag over a big area, indoors or outdoors, because the IVOXEX laser guns have an impressive range of up to 130 feet. This longer range makes the game more exciting and lets you play strategically.

5. LED Screen:

Both the laser guns and the jackets have LED lights that show how healthy the player is, how many lives they

have left, and how far they are in the game. These clear signs keep players informed about their health and encourage them to stay in the game.

7. **Safe and long-lasting:**

The IVOXEX laser tag set is made of strong, long-lasting materials that will hold up against rough play. The shape is safe for kids, and the sensors are soft, so they won't hurt themselves while they play. Laser guns are safe for kids to use, and the game is completely risk-free thanks to infrared output that is safe for kids.

8. **Group Combat That's Fun:**

This game is great for playing with other people. The laser guns allow multiple players to fight close together, which promotes teamwork and friendly competition. It's a great game for parties or family get-togethers because it gets people moving and talking to each other.

9. **Four Types of Weapons:**

The laser guns have four different weapon types that make the game more fun and interesting. Among these modes are:

1. Single Shot: This is the smallest power gun, and it has 12 shots. One life is lost for every shot.
2. Every shot from a machine gun kills two people.
3. Each shot from the laser gun kills two people.

This is the most powerful gun. Each shot fires one rocket, which kills three people. In these games, players can plan their moves and pick the weapon that works best for them based on the situation.

10. **Laser Gun Doesn't Fire Laser Beams:**

IVOXEX Laser Guns are safe for kids to use because they don't have real lasers inside them. Instead, they use infrared light. This keeps kids' eyes safe while they play, giving parents peace of mind.

11. **Power tools:**

Three 1.5V AAA batteries are needed for each laser gun, and the suits also need batteries to work. It takes 24 AAA batteries, which are not included, to make sure that each session is fun for a long time.

12. Family-Friendly Design:

The laser tag guns are made to be safe for the whole family. They get kids moving and away from screens while teaching them how to work together, think strategically, and improve their movement skills.

13. Great for Events and Parties:

The IVOXEX Laser Gun set is great for any event, like Children's Day, Christmas, Easter, birthday parties, or events for Back-to-School. It's a great gift for kids ages 4 to 8, and both boys and girls will have a great time with it.

14. Increased Party Fun:

The laser tag set helps make parties and other events more fun and exciting. It can turn any space into a competitive and fun laser tag arena with its interactive features and group-play choices.

15. Group Work and Skill Improvement:

Playing laser tag with the IVOXEX set helps people work together, think critically, and improve their physical skills. The game is not only fun, but it's also educational because it makes you work together and use tactics.

16. Easy to Use:

The IVOXEX Laser Guns are easy to understand and use. To have an exciting and realistic experience, all you have to do is put in the batteries, pick your team, and then switch to shooting mode. It's also easy to reload because there is a wide button at the bottom of the handle.

Usage

- **Setup:** Insert batteries into the laser guns and vests as per the instructions. Turn on both the gun and vest by pressing the designated power button.
- **Game Play:** Choose your preferred game mode (e.g., Team Battle or Free-for-All), and divide players into teams or let everyone battle it out individually.
- **Action:** Players aim and fire the laser guns at opponents' vests to score points. When hit, the vest vibrates and displays damage, and the gun temporarily deactivates to simulate "being hit."
- **Scoring:** The game can track player health, scoring, and status via the LEDs on the gun and vest.
- **End Game:** The game ends when all players are eliminated or when a preset time limit is reached.

Care and Maintenance

- **Battery Care:** Always remove batteries when not in use for long periods to prevent leakage.
- **Cleaning:** Wipe the laser guns and vests with a soft cloth to remove dirt and dust. Avoid using harsh chemicals or abrasive materials that could damage the surface.
- **Storage:** Store the guns and vests in a cool, dry place away from direct sunlight to prevent overheating and fading of the components.
- **Inspection:** Regularly check for any damage to the sensors, wiring, or plastic components. If any parts are damaged, replace them to ensure the game functions properly.
- **Battery Replacement:** Replace the batteries regularly to ensure continuous gameplay. Follow the instructions provided for safe battery installation.

Troubleshooting

1. Laser Gun Not Firing:

- **Possible Cause:** Dead or improperly inserted batteries.
- **Solution:** Replace or reinsert the batteries, making sure they are installed according to the instructions.

2. Vest Not Registering Hits:

- **Possible Cause:** The vest sensor is blocked or the battery is low.
- **Solution:** Ensure the vest's sensor area is unobstructed. Replace or charge the batteries if necessary.

3. No Sound or Vibration Feedback:

- **Possible Cause:** Incorrect settings or battery power too low.
- **Solution:** Check the settings on the gun and vest, and replace the batteries if the issue persists.

4. Laser Gun Not Pairing with Vest:

- **Possible Cause:** The gun and vest are not synchronized.
- **Solution:** Follow the instructions in the manual to ensure both devices are paired and on the same game mode.

5. Gun or Vest Not Turning On:

- **Possible Cause:** Power button not pressed properly or battery failure.
- **Solution:** Ensure the power button is pressed firmly and replace the batteries if needed.

Pros and Cons

Pros:

- Engaging multiplayer experience for all ages.
- Durable and safe design with low-power lasers.
- Easy setup and operation.

Cons:

- Requires batteries which are not included.
- Limited effective range may not suit larger outdoor spaces.

FAQs
