User Instruction

1. Connection Method

BT Mode: Turn on the mouse and switch to the Mouse Mode, hold down the side button for more than 3S, the indicator beside the charging port will flash rapidly. Then search for the BT device to connect, when the indicator light stops flashing, the connection is complete, and the mouse can be used normally.

*Note: BT name: BT 5.0. Please use it in Windows 8 and above system (Windows 7 does not support BT 5.0). If the device does not have BT function, you can buy a BT receiver to connect.

2. Reconnection Method

Turn on the mouse and switch to the Mouse Mode, short press the side button to switch the 3 BT modes cyclically.

Channel 1: the indicator light flashes red.

Channel 2: the indicator light flashes green.

Channel 3: the indicator light flashes blue.

The factory default is BT channel 1.

3. Low Battery Warning

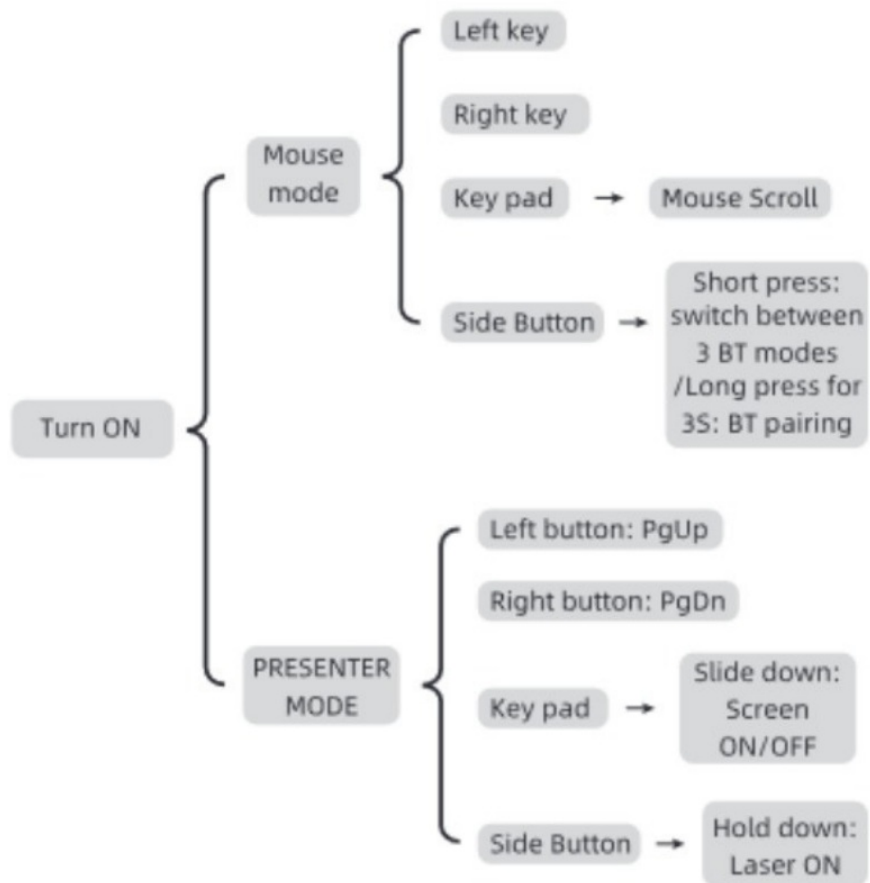

When the battery is lower than 20%, the side indicator light of the mouse will keep flashing; when the battery is 0%, the mouse will be turned off.

4. Working Distance: <10m
