Windows® – Driver Installation

Driver will automatically install on Windows 10/8.1/7 (Plug & Play requires Internet access)

Step 1

If you have internet access, it is highly recommended that you download the latest driver from www.j5create.com under Support scroll down to your product and download the latest driver for your operating system (Note: If possible, run as an administrator)

Step 2

Follow the prompts to install the driver (You may have to click on My Computer > downloads and choose

j5Usb3.0MultiAdapter to begin installation).

Step 3

Once initial installation has completed, click "Restart" to finish installing the software. After your computer has restarted, first connect the j5create docking station to your power adapter, HDMI, VGA, Ethernet, audio, etc and then to your computer. Now you are ready to use your j5create docking station!

Step 4

Display Settings Windows 8.1/7: Right click on the icon on the lower right-hand side of the toolbar to open display settings. If your driver automatically installed, you will see a different icon.

System Requirements

- Microsoft® Windows 10/81/7 (32-bit or 64-bit) Compatible macOS 10.8 or later
- Available USB-C™ DisplayPort™ Alt mode
- Supports 4K resolution output through the internal graphics card on the PC
- Available USB power delivery over USB-C to support upstream charging.

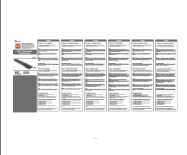

Extended Monitor System Requirements

- **One 2K** (2048 x 1152 @ 60 Hz) full-screen video playback
- **CPU:** Intel® Core™ i5 Quad Core
- **RAM:** 4 GB memory or higher
- **Two 2K** (2048 x 1152 @ 60 Hz) full-screen video playback
- **CPU:** Intel® Core™ i7 Quad Core
- **RAM:** 8 GB memory or higher

Higher processor recommended for multi-displays and optimal performance.

Before you upgrade your operating system, update your j5create product driver first to avoid compatibility issues.
