## 2. (Optional) Position the ScreenCast for an Optimal Streaming Experience

The USB™ connector can be attached to your TV with the double-sided adhesive strip that is included. The strip is for single-use and can be removed.

We DO NOT recommend placing the USB™ connector behind the TV or inside a TV cabinet. Doing so may cause a weak signal or loss of signal.

### Adhesive Strip Instructions:

**1**

Choose a flat surface to attach the USB™ connector.

Make sure the area is clean before attaching.

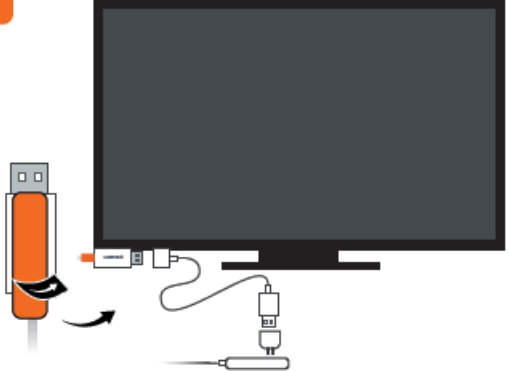

**2**

Remove the liner from the double-sided adhesive strip.

Press adhesive to the bottom of the USB™ connector.

**3**

Remove the other liner.

Firmly press the USB™ connector to the desired location for 30 seconds.

### 3. Power on TV and Select Input

Turn on your TV to power up the ScreenCast and select the input until you see the setup screen.

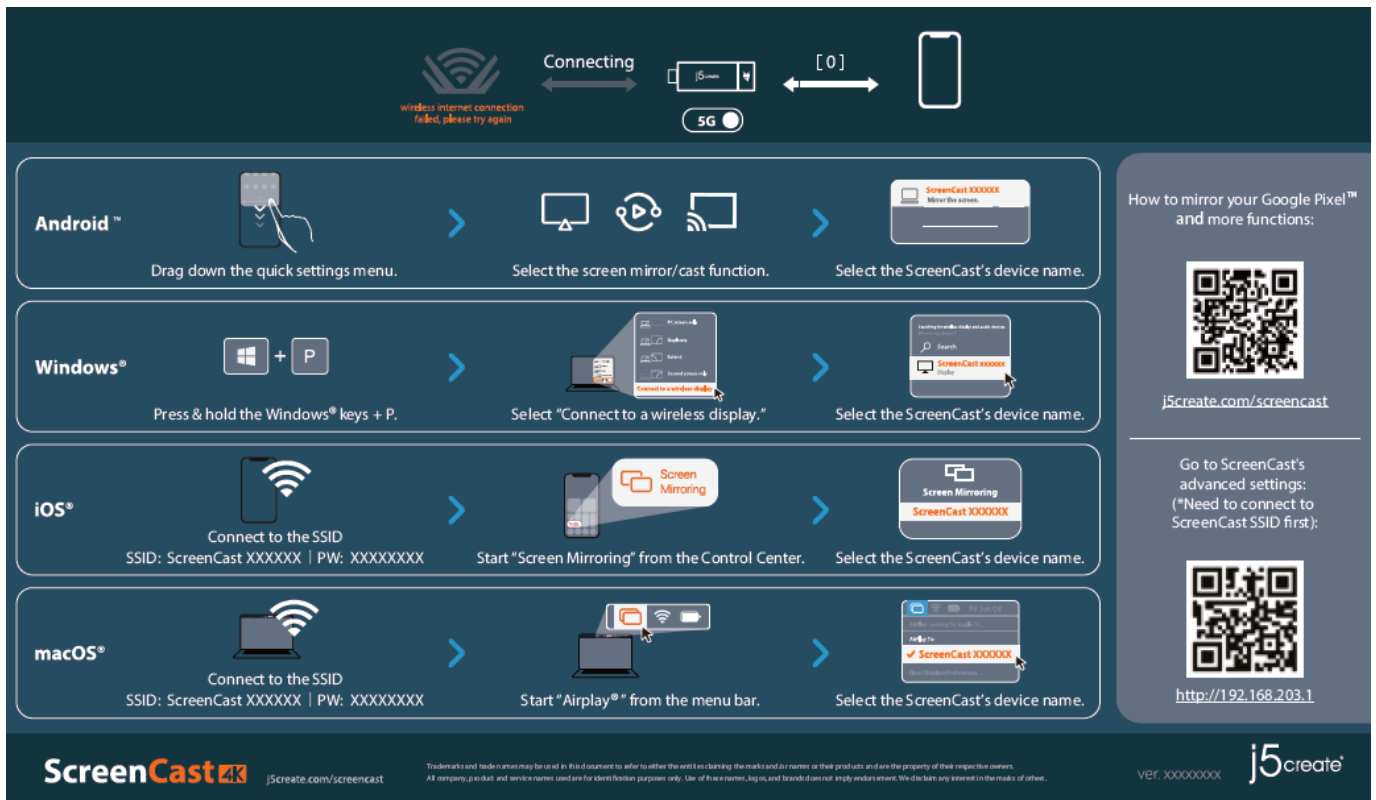

\* If your TV screen remains black, your TV may not be supplying enough power. In this case, please plug the USB™ cord into a USB™ power adapter and connect it to an outlet.
