## How to mirror

### 1. Simply plug into a laptop or mobile device

Plug the JVAW62 TX into a USB-C® port on a laptop or mobile device. Wait a few seconds until the flashing light on the JVAW62 TX stops, and it will start mirroring automatically. If the JVAW62 TX flashes for more than 20 seconds, unplug it and then plug it back in. If it flashes for more than 20 seconds again, it will need to be paired to the JVAW62 RX\*.

- See the section titled “How to pair the JVAW62 TX with the receiver” below for instructions on how to pair the TX with the RX.

### 2. Stop and restart mirroring

Press the JVAW62 TX button to stop or restart mirroring.

## Note:

The JVAW62 TX supports mirroring for all laptops and mobile devices running Windows®, macOS®, iPadOS®,

and Android™ operating systems. The USB-C® port on the device must also support DP™ output.

## Position the ScreenCast for an Optimal Streaming Experience

- The USB™ Type-A connector can be attached to your TV with the double-sided adhesive strip that is included. The strip is for single-use and can be removed.
- The USB™ Type-A connector is equipped with a Wi-Fi® module, antenna, and power supply; therefore, we DO NOT recommend placing the USB™ Type-A connector behind the TV or inside a TV cabinet. Doing so may cause a weak signal or loss of signal.
