Jabra Link 370 MS Teams Bluetooth Adapter

Specifications

- Product: Jabra Link 370 MS Teams – Bluetooth Adapter
- Compatibility: Works with Jabra MS Teams-certified devices
- Bluetooth Version: Bluetooth 4.2
- Pairing: Supports simultaneous pairing with multiple devices (Multiuse)

Product Usage Instructions

1. Initial Pairing:

1. Ensure that your Jabra device and the Jabra Link 370 MS Teams Bluetooth Adapter are both charged.
2. Plug the Jabra Link 370 MS Teams Bluetooth Adapter into the USB port of your computer or other compatible device.
3. Turn on your Jabra device and put it in pairing mode. Refer to your Jabra device's user manual for instructions on how to do this.
4. On your computer or device, go to the Bluetooth settings and search for available devices.
5. Select the Jabra Link 370 MS Teams Bluetooth Adapter from the list of available devices.
6. Follow the on-screen instructions to complete the pairing process.

2. Pairing with Additional Devices:

If you want to pair your Jabra device with additional devices, follow the steps below:

1. Ensure that your Jabra device is not already connected to any device.
2. Put your Jabra device in pairing mode.
3. On the new device you want to pair with, go to the Bluetooth settings and search for available devices.
4. Select the Jabra Link 370 MS Teams Bluetooth Adapter from the list of available devices.
5. Follow the on-screen instructions to complete the pairing process.

3. Multiuse Pairing:

If your Jabra device supports simultaneous pairing with multiple devices (Multiuse), you can easily switch between connected devices. Follow the steps below:

1. Ensure that your Jabra device is connected to at least one device.
2. To switch to another paired device, disconnect the current device by turning off its Bluetooth or selecting a different audio output source.
3. Connect to the desired device by turning on its Bluetooth or selecting the Jabra Link 370 MS Teams Bluetooth Adapter as the audio output source.

FAQ

Q: How many Bluetooth devices can I pair with my Jabra device?

A: In general, you can pair your Jabra device with multiple Bluetooth devices. If your Jabra device supports Multiuse, you can pair it with multiple devices simultaneously.

Jabra Link 370 MS Teams – Bluetooth Adapter

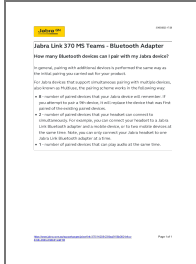

How many Bluetooth devices can I pair with my Jabra device

In general, pairing with additional devices is performed the same way as the initial pairing you carried out for your product. For Jabra devices that support simultaneous pairing with multiple devices, also known as Multiuse, the pairing scheme works in the following way:

- 8 – number of paired devices that your Jabra device will remember. If you attempt to pair a 9th device, it will replace the device that was first paired of the existing paired devices.
- 2 – number of paired devices that your headset can connect to simultaneously. For example, you can connect your headset to a Jabra Link Bluetooth adapter and a mobile device, or to two mobile devices at the same time. Note, you can only connect your Jabra headset to one Jabra Link Bluetooth adapter at a time.
- 1 – number of paired devices that can play audio at the same time.
