More features.

Scan and print small bar code.

- Scan the barcode

- Edit the file (Please customize the size according to the label size you are printing)

Note:

1. Please print PDF file but not picture. The quality of print PDF is better than photo. If you have to use photo, you should use the high-quality picture
2. The iPad device may not be compatible with the printer, it is better to use the mobile phone Bluetooth to print.
