Important Safety Instructions

Safety Instructions

READ AND FOLLOW ALL INSTRUCTIONS

DANGER Installation and manipulation should only be performed by a qualified technician. Do not use this equipment for any purpose other than that for which it was designed. Applicable standards for prevention of accidents and for electrical installations must be respected.

Use equipment only in a pool or spa installation

Metal rails must be bonded to all metal parts of the swimming pool, spa or hot tub structure and to all electrical components and equipment associated with the pool/spa water circulation system. The bonding must be accomplished by using a solid copper conductor, No. 8 AWG or larger. In Canada No. 6 AWG or larger must be used. Bond the Ladders using the external bonding lug. **See Step 4.**
