How to manually upgrade my soundbar firmware version

You can download the latest software version by clicking [here](#). Unzip the file and copy the 2 files (from the unzipped file) to the Root directory of an empty USB thumb drive:

- Update.zip and
 - Checksum.txt.
1. Please long press Soundbar buttons: [POWER] and [SOURCE] together for over 10 seconds to factory reset the Soundbar.
 2. Please insert the USB thumb drive to the Soundbar USB port on its rear panel and long press Soundbar buttons: [POWER] and [VOL-] for 10 seconds to start the software upgrade.
 3. You will now see "UPDATING" on the Soundbar front display.
 4. Wait for the software upgrading to complete. The unit will reboot and go back to standby.
 5. after successful upgrading, to check software version, please long press the [SOURCE] and [VOL-] buttons, the soundbar should be upgraded to version "ver. 22-49-21-00"

— THE END —
