FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subect to the following two conditions:

1. This device may not cause harmful interference, and

2. this device must accept any interference received, including interference that may cause undesired operation.

Note 1: This equipment has been tested and found to comply with the limits for a Class B digtal device, pursuant to part 15 of the FCC Rues. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the folowing measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Note 2: Any changes or modifications to this unit not expressly approved by the part responsible for compliance could avoid the user's authority to operate the equipment.

Trouble shooting

The twin speakers will be connected to each other automatically when both are on.

If two speakers could not be connected to each other successfully, please manually pair them as per the following steps:

1. Turn on twin speakers, and do not pair any Bluetooth devices;

2. Press and hold "+" &"-"simultaneously on any one speaker, then you will hear a beep;

3. Then the twin speakers will connect to each other successfully;
