JoyGeek T3-01 Phone Charger Stand

INTRODUCTION

A revolutionary 3-in-1 wireless charging solution, the JoyGeek T3-01 Phone Charger Stand makes it easy to charge a variety of gadgets at once, such as AirPods, Apple Watches, and iPhones. The charger is compatible with a broad range of devices, including numerous iPhone models (including the most recent iPhone 16 series), Apple Watch models (ranging from Series 2 to Ultra 2), and AirPods (2/3/4, Pro). Its compact and stylish design makes it easy to charge many devices simultaneously, freeing up valuable desk space. You have the option to charge your phone in either the vertical or horizontal position, giving you more flexibility to use your phone while it's charging. At only **\$38.88**, you get a lot of bang for your buck considering how useful and adaptable it is. This product, made by JoyGeek and **released on July 2, 2020**, is a tried-and-true option for people looking for a multi-purpose charging solution for their Apple devices.

- User Manual

Package Contents

FEATURES

- Conveniently charges your iPhone, Apple Watch, and AirPods all at once with this 3-in-1 charging station.
- **Supports a wide range of devices:** From iPhones 16–15, 14–13, 12–11, and SE, to Apple Watches S2–S10, SE, and AirPods 2–3/Pro.
- Convenient wireless charging is available, doing away with the need for a plethora of cords.
- **Efficient Power-Up Times:** Allows for rapid charging.
- **Compatible with AirPods Pro (MagSafe Version):** Enjoy effortless charging with these wireless headphones.
- Both horizontal and vertical charging are supported, so you may charge your gadgets as you like.
- **Eliminates Clutter:** An all-in-one stand streamlines your charging setup by minimizing wire clutter.
- You don't have to worry about overcharging or heat buildup when you leave your gadgets charging overnight.
- A built-in light-emitting diode (LED) indicates the current charge level of each gadget.
- The design incorporates a non-slip base to guarantee stability and avoid sliding.
- **Effortless Design:** Sleek and minimal, ideal for use on nightstands, desktops, or in the workplace.

- Because of its small weight and portability, it is an ideal travel companion.
- **High-Quality Construction:** Made from sturdy materials to withstand the test of time.
- **Efficient Use of Energy:** Designed to minimize power usage, ensuring minimal impact on the environment.
- **Secure Charging:** Prevents damage from overcharging, overheating, and short circuits automatically.

Efficient Heat Dissipation

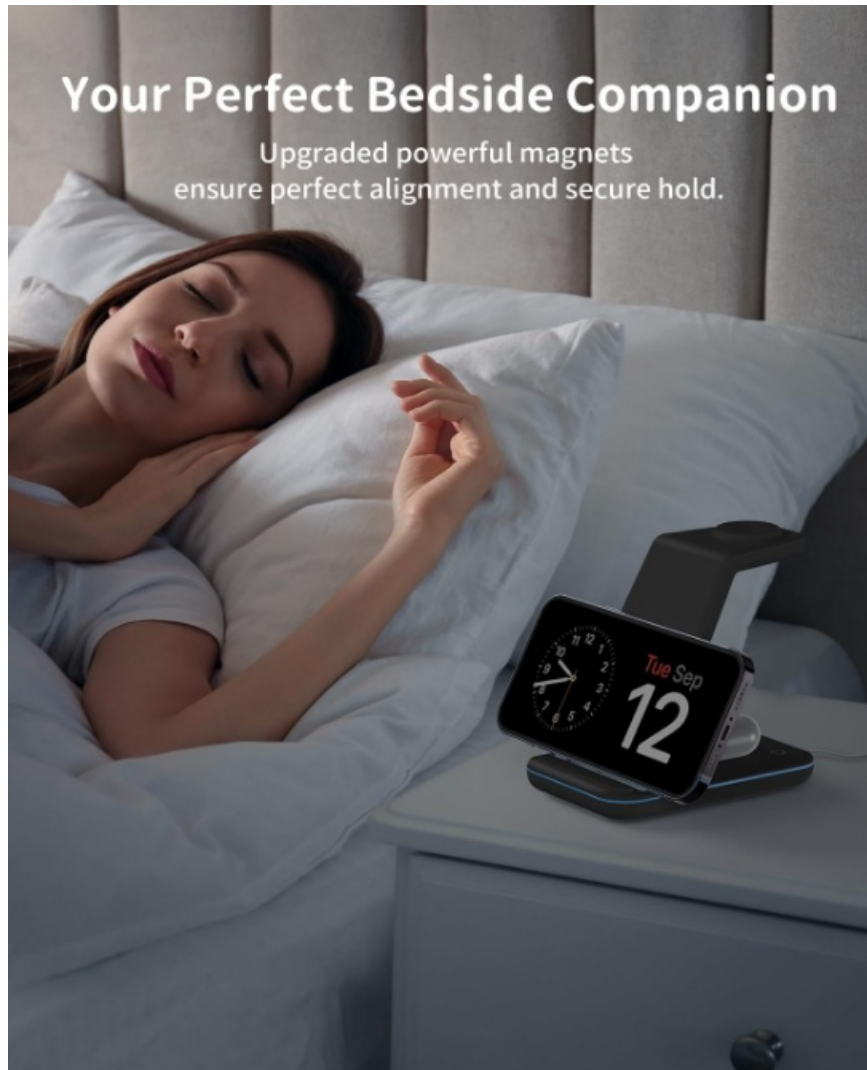

Charge smarter, charge safer
for total peace of mind

SETUP GUIDE

- **Setting Up the Charger:** Set up the charging stand on a level, steady surface, like a nightstand or desk.
- **Insert the USB-C Cable:** Insert the USB-C cable that came with your device into the USB port on the charging station.
- **Put Power Into It:** Plug in the opposite end of the USB-C cord to an appropriate power outlet or USB port.
- **Set Up Your iPhone:** Align the middle of your iPhone with the wireless charging pad and set it on the specified surface.
- **Position Apple Watch:** Set your wristwatch on the charging station for your Apple Watch.
- **Position Your AirPods:** Slide your AirPods or AirPods Pro into the designated charging slot.
- For best charging results, check that your devices are in the correct orientation relative to the wireless charging pads.
- The LED light should turn on to show that charging has begun, so check that it does.
- **Turn the Charging Mode to Horizontal for Bigger Phones :** Lay the iPhone Pro Max model horizontally on the charger's center.
- For quicker power-up times, activate fast charging and make sure your device supports it.
- If necessary, you can adjust the stand's angle so that you can view the screen comfortably as it charges.
- Be careful where you put your devices; don't put anything that could get in the way of the charger.
- The charger requires an input voltage of at least 9V to function properly, so be sure to use an adequate power source.

- **Charge Status Indicator:** Use the LED light to see how your devices are charging and make any necessary adjustments.

CARE & MAINTENANCE

- Removing dust and debris from the charging station is as easy as wiping it down with a dry, soft cloth on a regular basis.
- To keep the charger in pristine condition and free from harm, be sure to keep it dry and away from water.
- To keep the wireless charging pads clean and dust-free, wipe them gently with a dry microfiber cloth.
- Be Careful Not to Overload the Stand by Putting in Compatible Wireless Charging Devices.
- **Examine Power Cords:** At regular intervals, look for damage on the power cords. If needed, swap out.
- Avoid Overheating by Placing the Charger in an Appropriately Ventilated Area.
- To keep the charging station in pristine condition, shield it from hot sunshine and other heat sources.
- **Proper Storage:** Keep the charging station in a cool, dry place when it's not in use for a long time.
- For safety and maximum charging speed, always use compatible chargers. Make sure to use the right power adapters and cables at all times.
- **Check for Physical Damage:** Look for scratches, cracks, or other indications of physical damage on the charger. Should any harm occur, please contact assistance.
- **Prevent Damage from Drops and Other Heavy Impacts:** To keep the charging stand in good condition, do not drop or place heavy things on it.

- Whenever the charger is not in use for a long time, you can save energy by unplugging it.
- **Keep Anything from Blocking the Stand:** Make sure your iPhone, Apple Watch, and AirPods charging ports are clear of any obstacles.
- To make sure the charger is always running the most recent firmware with all the latest features and fixes, check for updates.
- **Careful Disposal:** After the charger's useful life has ended, dispose of it in accordance with local recycling regulations.

TROUBLESHOOTING

Issue	Solution
Charging station not turning on	Ensure the power adapter is correctly plugged in.
iPhone not charging	Place the phone properly at the center of the stand.
Apple Watch not charging	Confirm the watch is aligned correctly on the pad.
AirPods not charging	Make sure the charging case is properly positioned.
Charging speed is slow	Use a higher power adapter (9V) for faster charging.
Charging light not turning on	Check the connection and make sure it's powered on.
Phone charging while in the stand is unstable	Ensure the stand is on a stable, flat surface.
Device overheating	Remove the device and let it cool before recharging.
Devices not charging simultaneously	Ensure each device is properly aligned on the charger.
Charger not recognizing a device	Restart the device and align it on the charging pad.

PROS & CONS

PROS

1. 3-in-1 wireless charging for iPhone, Apple Watch, and AirPods.
2. Sleek, space-saving design perfect for desks and nightstands.
3. Vertical and horizontal charging options for user flexibility.
4. Clutter-free experience, minimizing cable management.
5. Affordable pricing for a multi-device charger.

CONS

1. Does not support charging for iPhone 13 mini or 12 mini.
2. Charging speeds may be slower for larger devices like iPhone Pro Max.
3. Limited compatibility with Samsung smartwatches.
4. Only supports wireless charging; no option for wired charging.
5. Can be bulky for some compact spaces.

WARRANTY

The JoyGeek T3-01 Phone Charger Stand comes with a **1-year limited warranty** from the manufacturer. This warranty covers defects in material and workmanship but does not apply to damages caused by improper usage or accidents.
