JOYIN LED Dual Swords

INTRODUCTION

For kids and Star Wars fans alike, the JOYIN LED Dual Swords are the best lightsabers ever. These two glowing swords are a great deal at just \$21.99, and their bright LED lights make them perfect for any costume or pretend play. The swords are 26.5 inches long, 3 inches wide, and 3 inches high, making them perfect for kids over the age of 3. They run on AAA batteries and have motion-activated light effects that make them hours of fun. This makes them great for making up battles. These dual swords, made by JOYIN INC, a well-known company that makes fun toys, will make any adventure come to life. The glow in the dark swords will be a hit at any party or special event, whether your child plays by themselves or with friends. These swords, which just came out recently, are a great way to have fun, be creative, and play action-packed games.

WHAT'S IN THE BOX

- LED Dual Swords
- battery
- Manual

FEATURES

- **6-Color Alternating Mode:** The dual swords come in six bright colors that can be switched around to make them look however you want.
- **Motion-Sensitive Sound Effects:** When the swords move, lifelike sound effects play, making the experience more realistic.
- **Dual Swords with 2-in-1 Design:** The set comes with two separate swords that can be joined together to make one big weapon. This makes it great for battles with one person or two.
- **LED Light Flashing Mode:** The swords can flash in different light styles, which makes the game more exciting to watch.
- **Clear LED Blades:** The blades are made of clear materials that let the LEDs shine through clearly, making a dramatic effect.
- **Durable Plastic Construction:** The swords are made of high-quality plastic that will last for a long time and can handle rough play.

- **Realistic Handle Design:** The handles are made in a way that makes them comfortable and easy to hold on to during a fight.
- **Tested for safety and not harmful:** The swords pass US toy safety standards, which means they are safe for kids.
- **Great for Themed Parties:** Great for birthday parties, Halloween dress-ups, or parties with a space warrior theme.
- **Great for Role-Playing:** Kids can use their imaginations as they play as fighters or galaxy heroes.
- **Fun for Kids and Adults:** This game is good for both kids and adults who like fights with lots of lights and action.
- **Light-Up Swords:** The swords light up, which is a cool effect that works well in low-light areas.
- **Easy-to-Use Switch:** The flashing mode and choosing between colors can be done with a simple switch.
- **AAA Battery-Powered:** The swords run on AAA batteries, so you can play with them for a long time.

- **Great as a Gift:** This is a fun and interesting gift for kids that can be used for many events, such as birthdays, holidays, and special occasions.

SETUP GUIDE

- **Insert AAA Batteries:** Open the battery box and put in the AAA batteries that are needed, making sure they are in the right way around.
- **Lights and sounds will start up** when you press the power button on the swords.

- **Change Colors:** To go from one color to another, hold down the switch for a long time.
- **Bright Mode:** To add more fun, use the switch to turn on bright light effects.
- **Change the Motion Sensitivity:** To use the motion-sensitive sound effects, move the swords around.
- **Connect the Swords:** To make a bigger weapon, use the dual blade coupler to join the two separate swords.
- **Choose Mode:** The switch lets you choose between different lighting styles, such as steady or flashing.
- **Check the Battery Level:** If the sound or lights go out, put new batteries in the box.
- **Pick the Length You Want:** The swords' length can be changed thanks to their removable dual-blade design.
- **Make Sure the Play Area Is Safe:** Make sure there is enough room to move around safely when using the swords.
- **You should make sure that the sound and lights work** before you start the action.
- **Store the Swords:** Keep the swords in a dry place when not in use to keep them from getting warped by water.
- **Make sure the battery compartment is safe:** Make sure the battery cover is closed all the way to stop the battery from leaking.
- **Test the Switch:** Press the switch several times to make sure that all of the settings are working, including the colors, sound, and lighting mode.
- **Watch Kids:** Always keep an eye on kids while they play to make sure they stay safe.

CARE & MAINTENANCE

- **Regularly Change Batteries:** If the sound gets weak or the lights get dim, the AAA batteries need to be

changed.

- **Clean the Blades:** Wipe down the clear LED blades gently with a wet cloth, being careful not to get water on the electronics.
- **A cool, dry place is best** for storing the swords so that the batteries don't leak or get damaged.
- **Check for Loose Parts:** Check the swords often for damage or loose parts, especially in the battery area and the dual connector.
- **Be Careful Not to Drop:** Be careful not to drop the swords because doing so could damage the LED lights or break other parts.
- **Do Not Submerge in Water:** To keep the electronics from breaking, do not submerge the swords in water.
- **Remember to only use batteries** that the manufacturer says to use. For example, AAA batteries should always be used.
- **Stay out of direct sunlight:** Plastic that is left out in the sun for a long time may fade or break down.
- **Clean the Handles:** To make sure you can hold on to it easily, clean the handles with a dry cloth.
- **Turn Off When Not in Use:** When not in use, turn off the sound and lights to save battery life.
- **Check for Frayed Wires:** Check the wiring for harm or signs of wear and tear every so often.
- **Don't Hit Hard:** When you use the swords, don't hit them hard or put too much pressure on the LED lights.
- **Separate the Swords:** If you do decide to store them together, make sure the handles and blades are properly locked to keep them from getting damaged.
- **Do Not Use Strong Chemicals:** Do not clean or use strong chemicals on the swords because they can damage the surface.
- **Do Regular Function Tests:** Make sure the lights and sounds are working right by testing them often and fixing any problems right away.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Sword lights are not turning on.	Dead or improperly installed batteries.	Replace or reinstall the AAA batteries.
Lights are dim or flickering.	Low battery power.	Replace the batteries with fresh ones.
Swords are not lighting up together.	Batteries in one sword are dead.	Check and replace the batteries in the non-working sword.
Button doesn't work.	Button might be stuck or broken.	Gently press the button or inspect for damage.
Swords aren't syncing properly.	Electrical contact issue.	Ensure the battery compartment is clean and contacts are intact.
Sword doesn't make sound effects.	Battery power is low.	Replace the batteries to restore sound functionality.
Sword is too dim for night play.	Battery performance degrading.	Replace with new, high-quality batteries.
Plastic feels loose or weak.	Overuse or impact damage.	Check for any cracks or breaks; handle more carefully.
Sword is not turning off.	Malfunctioning switch.	Switch off by pressing the button harder or check for blockages.
Light stays on even when turned off.	Faulty wiring or circuit.	Inspect wiring or contact customer support for repairs.
No sound from the sword.	Sound function is turned off.	Ensure the sound feature is enabled and the battery is installed correctly.
Sword does not illuminate during play.	Batteries installed incorrectly.	Reinsert the batteries correctly, ensuring proper alignment.
Swords not glowing bright.	Batteries not fresh.	Use fresh AAA batteries to restore full brightness.
Lights flicker with movement.	Connection issue or poor contact.	Inspect the battery compartment for any loose connections.
Unresponsive button.	Button jammed or dirty.	Clean the button area or check for damage.

PROS & CONS

Pros:

1. Vibrant LED lights make for a thrilling play experience, especially in low-light settings.
2. Dual sword set allows for both solo and group play.
3. Durable design with non-toxic materials ensures safety.
4. Affordable price point compared to similar products.
5. Fun and engaging, promoting physical activity and imaginative play.

Cons:

1. Battery dependent, requires AAA batteries that are not rechargeable.

2. Short battery life, requiring frequent replacements.
3. Light intensity may decrease after extended use.
4. Only suited for children aged 3 and up, limiting its audience.
5. Slightly fragile plastic material may break with rough use.

WARRANTY

The JOYIN LED Dual Swords come with a limited warranty that covers manufacturing defects for a period of 30 days from the date of purchase. This warranty does not cover damage caused by misuse, accidental breakage, or improper handling. For warranty claims, contact JOYIN INC's customer service for guidance on returns or exchanges.

FREQUENTLY ASKED QUESTIONS

What is the JOYIN LED Dual Swords?

The JOYIN LED Dual Swords are a pair of light-up toy swords designed for fun and interactive play, featuring LED lighting effects that make them glow in the dark.

How much do the JOYIN LED Dual Swords cost?

The JOYIN LED Dual Swords are priced at \$21.99, offering great value for dual-sword play with LED lighting effects.

What are the dimensions of the JOYIN LED Dual Swords package?

The JOYIN LED Dual Swords package measures 26.5 x 3 x 3 inches, making it easy to store and ship.

How much do the JOYIN LED Dual Swords weigh?

The JOYIN LED Dual Swords weigh 13.1 ounces, making them lightweight and comfortable for kids to hold during play.

What is the recommended age for the JOYIN LED Dual Swords?

The JOYIN LED Dual Swords are recommended for children aged 3 years and up, providing a fun experience for young adventurers.

What kind of batteries do the JOYIN LED Dual Swords use?

The JOYIN LED Dual Swords require AAA batteries, which are necessary for the LED lights to function.

How do the LED lights in the JOYIN LED Dual Swords work?

The JOYIN LED Dual Swords feature LED lights that activate when the swords are in use, glowing brightly to add excitement to any play session.

How should I care for the JOYIN LED Dual Swords?

To care for the JOYIN LED Dual Swords, ensure they are stored in a dry area and avoid exposure to excessive moisture or rough handling to preserve their LED lighting functionality.

How do you replace the batteries in the JOYIN LED Dual Swords?

To replace the batteries in the JOYIN LED Dual Swords, simply open the battery compartment and insert the required AAA batteries.

Why isn't my JOYIN LED Dual Swords turning on?

Verify that the batteries are correctly installed with the proper polarity. If the swords are still not powering on, check the battery contacts for corrosion or dirt, which could impede the connection. Replace the batteries if necessary.

The lights on my JOYIN LED Dual Swords are not working. What should I do?

If the lights are not illuminating, ensure that the battery power is sufficient. Replace the batteries with fresh ones. If the issue persists, inspect the internal wiring for loose connections, and ensure the LED strips are not damaged.

The sound effects on my JOYIN LED Dual Swords are not working. What can I do?

First, check that the sound feature is not disabled, if there is such an option. If the sound is still not working, examine the speaker for any obstructions or damage. Inspect the internal wiring for any loose connections that may be preventing the sound from functioning properly.

My JOYIN LED Dual Swords flicker or show inconsistent lighting. How can I fix this?

Flickering or inconsistent lighting could indicate a weak battery. Replace the batteries with fresh ones and ensure they are installed correctly. If the problem persists, inspect the LED strips and connections for damage or loose wiring.

The JOYIN LED Dual Swords are not activating the motion or swing effects. What should I check?

The motion sensors may be obstructed or malfunctioning. Clean the sensor area to ensure it is free from debris. Additionally, check the internal wiring and connections to ensure that the sensor is properly connected and functioning.

The JOYIN LED Dual Swords make strange noises or rattling sounds. What should I do?

Strange noises can occur if there are loose parts inside the sword. Inspect the internal components, such as the speaker and any moving parts, for any loose or detached components. Secure any parts that may be rattling.
