Thank you for purchasing our products, please read it carefully before operating.

product introduction

JW-05R features 2.4G wireless system, no need to connect multiple cables during live streaming, you can adjust the frame easily while live streaming. It supports bidirectional transmission, you can live stream or play music via the smart phone.

parameter

Frequency: 2400~2483.5MHz

Frequency response: 20Hz~22kHz±1dB

SNR: 90dB

Transmission delay: 9ms

Sampling rate: 48KHz

Bit depth: 24 bits

The maximum transmission distance: 15-20m (Barrier-free working distance) 10-15m (Obstacle distance or the noise is too loud)

Charging Input voltage: DC4.8~5.4V

Receiver(Lightning port or Type-C port)

With no battery, plug and play, no need to charge

Transmitter

Battery type: lithium battery Built-in battery capacity: 15mAh 3.7V

Working hour: about 4-5 hrs on a full charge Charging time: about 1 hr(5W1A)

function

Transmitter

1. 3.5mm 4-pole Jack: for connecting to amp's analog five streaming Jack
2. Communication power indicator: it flashes in blue when the unit is turned on but not connected yet, it's in blue when being connected, it flashes in red when in low battery. in red when the unit is being charged, and the red LED goes off once fully charged.
3. Power adapter/Pairing button: long press it for 2 seconds to turn on/off the unit, double click it to pair,
4. Type-C USB Jack: for charging the transmitter.

Receiver

5. USB Type-C connector: for connecting to the cell phone,
6. Charging port: It can charge the cell phone when it's in use normally.
7. Power status indicator: the LED is flashing in blue when it's turned on but not connected yet, it's in blue when it's turned on and connected successfully

package content

1. Transmitter
2. Receiver x 2
3. Type-C charging cable
4. Type-C audio conversion line
5. Lightning audio conversion line

how to use

The 1st step: please fully prepared before you use JW-5R for the first time, use the Type-C charging cable to charge the transmitter for about 1 hr.

① This port, use Type-C cable to charge the transmitter

The 2nd, step: connect the receiver to your cell phone, now the LED is flashing in blue.

The 3rd step: press the power indicator for 2 seconds to turn it on, the LED will be flashing in blue, when the LED of the receiver and transmitter change from purple to blue (in blue), it means they are connected successfully. Then you can turn on cell phone's camera, apps or other devices.

*You can pair up the transmitter and receiver all over again by double clicking transmitter's power indicator.

Important notes

1. Do not disassemble or repair this product by yourself.
2. Do not use or store it to any heat sources, damp, dusty areas. Avoid violent vibrations or shock.
3. Do not drop this product otherwise it may malfunction.
4. Do not use alcohol or other cleaning fluids to clean this product.
5. Please make sure the transmitter and the receiver keep a distance away from wireless router or other wireless equipments during use.
6. Obstructions between the transmitter and the receiver may affect the transmission distance.
7. Due to one of the characteristics of lithium battery, there is a slight self-discharge. Therefore please charge the battery in 2 months so as to avoid low battery protection.
8. The lithium battery capacity decreases gradually after repeated charge and discharge, so this product's lifetime will be affected within acceptable degree with time.
