JOYZ 076 Swing Structure

Product Usage Instructions

Assembly Steps:

1. Identify all parts based on the provided list.
2. Start by connecting parts A, B, and C to form the base of the swing structure.
3. Attach parts D and E to the base to create the main frame.
4. Continue adding parts F, G, H, I, J, K, L, M, and N in the specified order to complete the frame assembly.
5. Secure all connections using the provided bolts.

Usage Guidelines:

- Ensure the swing structure is placed on a flat and stable surface.
- Avoid exceeding the recommended weight limit when using the swing.
- Regularly inspect all connections and bolts for tightness to maintain safety.

Frequently Asked Questions (FAQ)

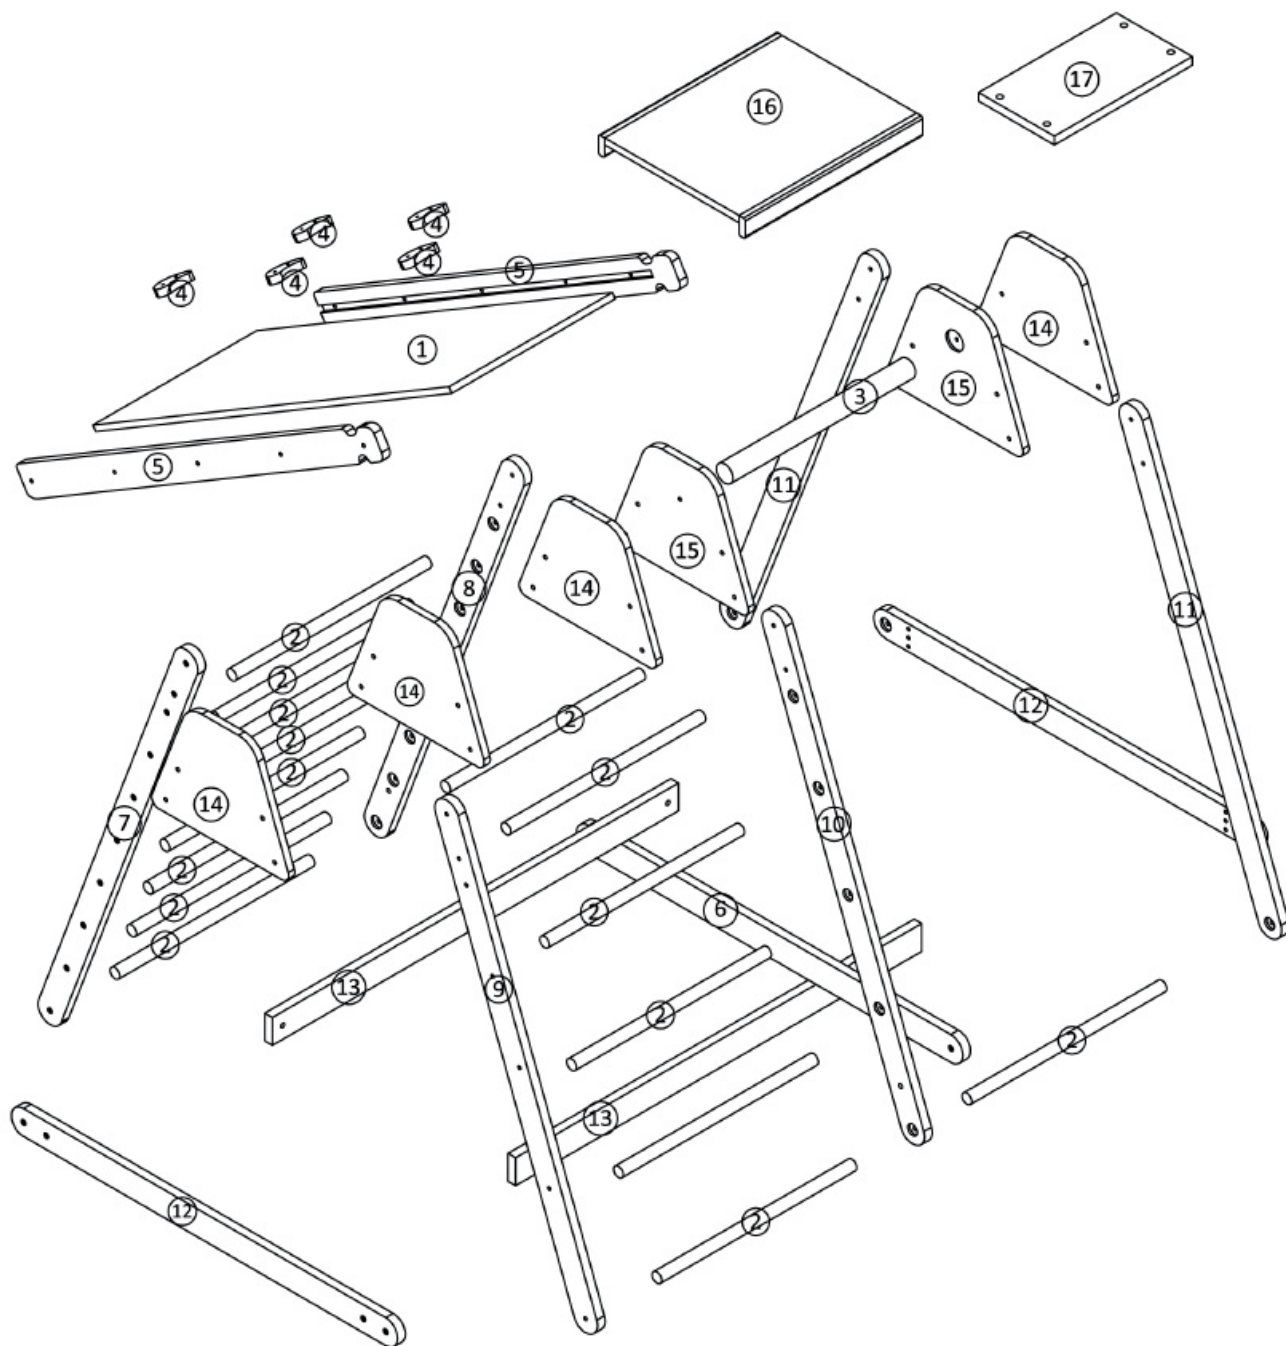

- **Q: How do I ensure the swing structure is stable during use?**

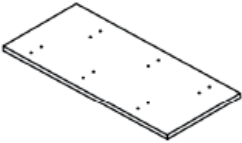

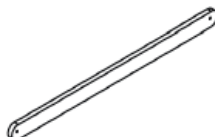

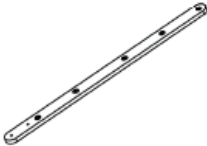

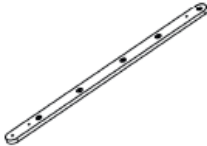

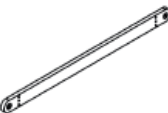

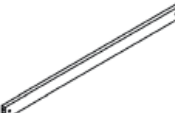

A: Make sure to assemble all parts correctly and tighten all bolts securely. Additionally, place the swing on a level surface for added stability.

- **Q: What is the weight limit for this swing structure?**

A: The recommended weight limit for this swing structure is X pounds/kilograms. Please adhere to this limit to prevent any accidents or damage to the product.
