7. If not used for a long time, please fully power off and save

Power On/Off:

To power on the device, press and hold the power button for 3 seconds. To power off, repeat the same process.

Charging:

Connect the device to a power source using the provided cable. The LED indicator will show the charging status.

Functionality:

Use the control buttons to navigate through different modes and settings. Refer to the user manual for detailed instructions on each function.

FCC STATEMENT

Caution:

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and

2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FAQ

Q: How do I reset the device?

A: To reset the device, locate the reset button on the back and press it for 5 seconds.

Q: Can I use the device while charging?

A: Yes, you can use the device while it is charging. However, it is recommended to let it fully charge before extended use.

Q: How do I clean the product?

A: Wipe the product with a soft, damp cloth. Avoid using harsh chemicals or solvents.
