Jslinter 25w Wax-Warmer Light Bulb

INTRODUCTION

Designed for full-size Scentsy-style wax warmers, the Jslinter 6-pack of 25-W G16.5 (G50) incandescent wax warmer bulbs costs approximately **US\$11.90** for six. These bulbs have an E12 candelabra base, measure Ø 1.90 in by 2.76 in, run on 110–130 V, and produce around 170–190 lm. They melt wax completely and uniformly without overheating, and they have a gentle red glow that may be dimmed. With a 180-day warranty and an estimated 1,500-hour lifespan, they're a wonderful deal for fragrance enthusiasts.

Product Information

A bulb that promotes relaxation and scent

For full-sized scent warmers and oil fragrance warmers, the Jslinter G50 25 Watt Globe Scentsy Bulb is an excellent substitute bulb. These scented light bulbs, which have a 1500-hour lifespan and 190 lumens, offer enough light and excellent heat for a uniform melt. They are ideal for using in the bedroom to create a lovely scent because they provide a gentle, yellow light that is neither too bright nor glaring. Each bulb is 1.90 inches in diameter and 2.76 inches in length, so before you buy, be sure the size will fit your warmer. For anyone who wishes to benefit from scented warmers in their home or business, these bulbs are an excellent investment because to their long lifespan and dependable performance.

Full Size Warmer Generic

Both ornamental and practical

The globe-shaped Jslinter G50 25-Watt Scentsy Bulbs add a lovely and sophisticated touch to your home in addition to fulfilling the essential purposes of warming and melting, and lighting. Their distinctive design gives your oil fragrance warmers and scent warmers a dash of class and charm. Because they create a warm, inviting, and cosy atmosphere, these bulbs may improve the ambience of any space. In addition to being a source of illumination, they also emit a calming scent that can aid in your relaxation after a demanding day. Additionally, these bulbs' globe shape distributes light evenly, making them ideal for use in any room of your house. You may enjoy a lovely and useful lighting solution that gives your home a touch of elegance with the Jslinter G50 25-Watt Scentsy Bulbs.

Warm, gentle light

With their warm colour temperature of 2700K and brightness of 190 lumens, our wax warmer bulbs make your house feel warm and welcoming. These light bulbs' crystal clear glass lets the light shine through attractively, adding to the atmosphere of any

space. When you need to rest, you can relax and calm your senses with the warm, peaceful light that these bulbs emit. Their gentle glow produces a tranquil atmosphere that's ideal for relaxing at home or for winding down after a long day. These bulbs are not only useful for illumination, but they also look good and can make any space more charming and sophisticated. Their cosy and welcoming glow can accentuate your wax warmer's attractiveness and create a calm and cozy atmosphere in your house.

Easily Dimmable

Without stuttering or flickering, our G50 light bulbs are made to dim smoothly from 0% to 100%. This enables you to modify the light output to suit your different lighting requirements, whether you're looking for a calm and tranquil setting or a bright and lively one. These bulbs are a flexible and practical lighting option for your house or place of business because they work with practically every dimmer on the market. With your dimmer switch, you can effortlessly adjust the brightness level to create the ideal lighting setting for any event. These bulbs provide a personalized lighting experience based on your personal preferences thanks to their smooth dimming capabilities. These G50 light bulbs are the ideal option for your lighting requirements, whether you're trying to create a romantic atmosphere or a productive workspace.

- **Value Pack:** Comes in a cost-effective pack of 6 bulbs.
- **Warranty Period:** Includes a 180-day manufacturer warranty.

TROUBLESHOOTING

Issue	Possible Cause	Fix
Bulb not lighting	Loose fitting	Power down, tighten bulb gently
Flickering light	Faulty bulb or socket	Replace bulb; check socket contact
Wax not fully melting	Low wattage or dim setting	Ensure 25W; increase dim setting
Warmer overheating	High setting / no wax	Lower dim; keep wax present
Bulb overheating/discolored	Incompatible or overvoltage	Use correct bulb; verify voltage
Short lifespan	Frequent on/off cycles	Limit cycles; allow cooldown
Wax pooling unevenly	Bulb misaligned	Adjust bulb position in socket
Bulb base damage	Over-tightening	Handle gently, screw loosely

Issue	Possible Cause	Fix
Flicker after dimming	Dim control issue	Try different dim setting or bulb
Bulb won't thread in socket	Wrong base type	Confirm E12 base and correct thread size

PROS & CONS

Pros

- Efficient full melting of wax
- Soft red glow improves ambiance
- Convenient 6-pack at good value
- Dimmable for light customization
- 180-day guarantee for peace of mind

Cons

- Limited to full-size warmers only
- Some users report shorter lifespan
- Red light may not suit all tastes
- Not compatible with lower-voltage systems
- Incandescent bulbs generate heat

WARRANTY

180-day limited warranty covers any defects or shipping-damaged bulbs. Contact the seller for replacements during this period.
