JURA MDB Connect Interface System

PRODUCT INFORMATION

Proper use

MDB Connect may only be used with the specified JURA interfaces. It provides wireless communication between the coffee machine and various accessories (for compatible machines, see jura.com). Use for any other purpose will be deemed improper. JURA cannot accept any responsibility for the consequences of improper use.

Wireless connection (Bluetooth LE / Wi-Fi): Frequency band 2.4 GHz | Max. transmission power < 100 mW

Overview of MDB Connect

1. **LED:** Indicates the status of MDB Connect

2. **Connector:** For inserting into the service socket of the coffee machine / MDB interface / Cool Control

Installation

MDB Connect must be inserted in the service socket of the automatic coffee machine (which is switched off). This is usually on the top or at the rear of the machine, beneath a removable cover. If you don't know where the service socket of your coffee machine is, ask your dealer or go to jura.com.

- Plug MDB Connect into the coffee machine's service socket.
- The "Collection" programme item appears in the coffee machine's settings.

Find out more at jura.com/payment.

Connecting to JURA Cool Control

MDB Connect can be used to connect the coffee machine to Cool Control. This requires Cool Control to also be equipped with MDB Connect. If a machine is switched off and then on again, the connection is re-established automatically.

Resetting MDB Connect to factory settings in Cool Control

MDB Connect can be reset to factory settings should any general problems occur (such as connection problems): To do this, press and hold the Cool Control On/Off button .

LED indicators

LED action	Coffee machine	Cool Control	MDB interface system 2.0
LED does not light up	Coffee machine is switched off; no power supply	Cool Control is switched off; no power supply	MDB interface system is switched off; no power supply

LED lights up	–	Connection established with the coffee machine
LED flashes (once per second)	Connection established with the accessory	The coffee machine is switched off, connection to coffee machine not possible
LED flashes (twice per second)	Attempting to establish a connection	Cool Control/MDB interface system is not configured with the coffee machine.

WARRANTY

JURA Products Ltd warranty conditions

For this machine, JURA Products Ltd, Vivary Way, Colne, Lancashire, offers to the end customer, in addition to the rights of guarantee from the retailer, an optional manufacturer's warranty with the following terms and conditions for

12 months from the date of purchase

1. During the warranty period, defects will be remedied by JURA. JURA shall decide whether to remedy the defect by repairing the machine, replacing defective parts or replacing the machine. The performance of warranty services shall not cause the warranty period to be extended or restarted. Replaced parts become the property of JURA.
2. A warranty service is not applicable for damage or defects caused by incorrect connection, incorrect handling or transport, repair attempts or modifications by unauthorised persons or non-compliance with the instructions for use. In particular, the warranty shall be void if JURA's operating or maintenance instructions are not followed or if maintenance products other than JURA water filters, JURA cleaning tablets or JURA descaling tablets are used that do not correspond to the original specifications. Wearing parts (e.g. seals, grinding discs, valves) are excluded from the

warranty, as is damage caused by foreign bodies entering the grinder (e.g. stones, wood, paper clips).

3. The sales receipt, specifying the purchase date and machine type, must be provided as evidence for warranty claims. In order to simplify the process, the sales receipt should also include the following information where possible: name and address of the customer and serial number of the machine.
4. Warranty services are performed in the United Kingdom. For machines purchased in one EU country and taken to another EU country, services will be performed in accordance with the JURA warranty conditions applicable in this country. An obligation to provide warranty services only exists if the machine satisfies the technical specifications applicable in the country in which the warranty claim is made.
5. In the United Kingdom, warranty services are performed by authorised JURA service centres for commercial models.

FCC

This device complies with Industry Canada licence-exempt RSS standard(s) and part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference,

including interference that may cause undesired operation of the device. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FAQs

- **Q: What is the warranty period for the MDB Connect?**
 - A: The warranty period for the MDB Connect is typically 12 months from the date of purchase.
- **Q: How do I know if my MDB Connect is properly connected?**
 - A: The LED indicator on the MDB Connect will blink at different rates to indicate its connection status. Refer to the user manual for specific LED indications.
- **Q: Can I transfer the warranty if I move to a different country within the EU?**
 - A: Warranty conditions may vary based on the country you move to within the EU. Contact JURA customer service for detailed information on transferring warranties between EU countries.
