- **Position for Makeup:** Set the fan on a desk to help dry makeup or beauty products.
- **Use Outdoors:** Bring it along for a picnic, hike, or outdoor event to stay cool.
- **Use While Working:** Place it near your keyboard or workspace for personal airflow.
- **Store When Not in Use:** Fold and store in a drawer or travel pouch.
- **Check Battery Level:** Recharge when airflow weakens or the light indicator shows low power.
- **Travel Use:** Keep it charged before long travel days for instant comfort.
- **Avoid Overuse:** Let the fan rest after extended use to prolong battery life.

## CARE & MAINTENANCE

- **Power Down Before Cleaning:** Always turn off the fan before attempting to clean it.
- **Wipe Exterior:** Use a dry or slightly damp cloth to clean the surface.
- **Keep Vents Clear:** Make sure the air intake and outlet are free of lint or debris.
- **Clean Blades Carefully:** Gently brush the fan blades to remove dust without bending them.
- **Avoid Water Exposure:** Do not immerse the fan or expose it to heavy moisture.
- **Use Proper Charging Cable:** Always use the original or a compatible USB charging cable.
- **Store in a Safe Place:** Keep the fan in a clean, dry location when not in use.
- **Avoid Dropping:** Handle with care to prevent cracks or motor damage.
- **Charge Regularly:** Even if unused, charge once every few weeks to maintain battery health.
- **Check Button Function:** Make sure the power button responds smoothly—avoid pressing too hard.
- **Protect the Charging Port:** Keep the USB port clean and covered when not charging.
- **Don't Block the Airflow:** Make sure nothing obstructs the airflow while in use.
- **Avoid Extreme Temperatures:** Do not leave the fan in direct sunlight or extreme cold.
- **Keep Away from Chemicals:** Don't use alcohol, bleach, or strong cleaners on the fan.

## TROUBLESHOOTING

Issue	Possible Cause	Solution
Fan not turning on	Battery is empty	Charge fan via USB cable for at least 2 hours
Low airflow	Low speed selected or dust in vents	Increase speed or clean fan blades and vents
Fan shuts off unexpectedly	Battery drained or auto shut-off engaged	Recharge or restart after cooled down
Speed button unresponsive	Temporary control glitch	Reset device or press and hold the button
Charging too slowly	Low-output power source	Use 5V/2A wall adapter or check USB cable
Fan making noise	Debris inside or loose parts	Clean carefully and check for obstructions
Cannot switch fan mode	Button held too short/long	Press button firmly once per speed level
Fan vibrating excessively	Unstable surface or internal imbalance	Place on a flat surface and avoid rough handling
Charging indicator not showing	Faulty cable or port	Try a different USB cable or port
Neck lanyard not secure	Improper attachment	Refasten the lanyard using the designated loop
