K and J CUSTOM DOG CRATES IATA Compliant Door Chew Guard for Crates

Included in Kit

- Front Door Guard
- Back Door Guard
- Thumb Screws (5 pieces)

Installation Instructions

Please install the door guard as shown in the diagram below:

Diagram Description

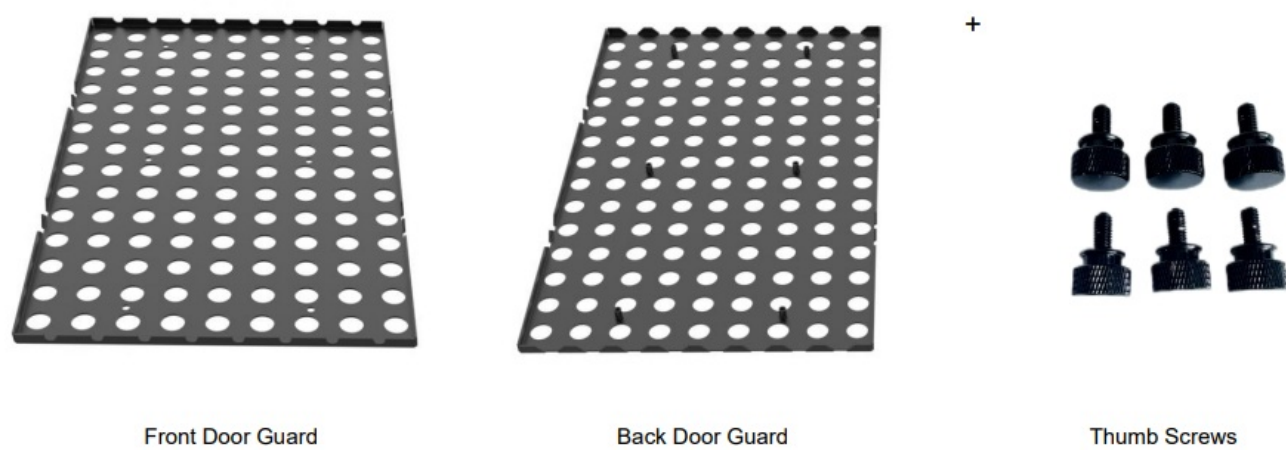

The diagram illustrates the installation process for the door guard. It includes the following components:

- **Front Door Guard:** Positioned at the front of the door.
- **Back Door Guard:** Positioned at the back of the door.
- **Thumb Screws:** Used to secure the guards in place. Ensure all screws are tightened properly.

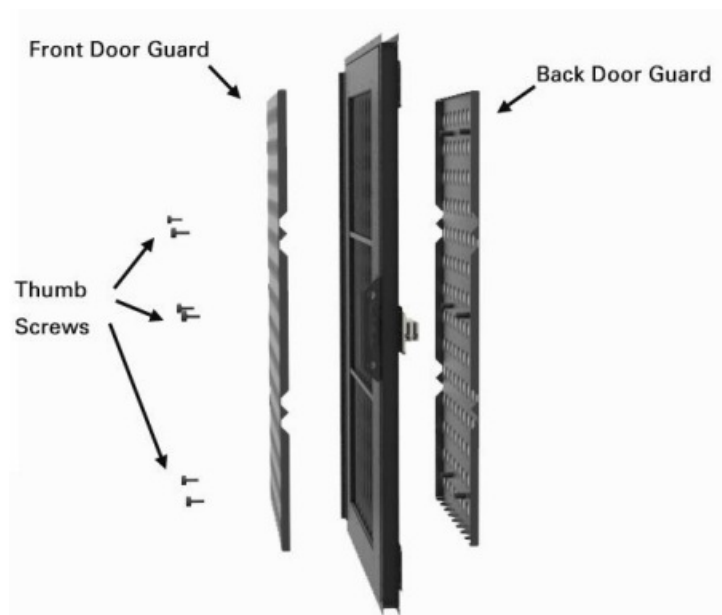

Specifications

| Component | Description |
|------------------|---|
| Front Door Guard | Perforated metal panel designed to protect the front of the door. |
| Back Door Guard | Perforated metal panel designed to protect the back of the door. |
| Thumb Screws | Set of 5 screws used to attach the guards securely. |

Included in Kit

Please Install the door guard as the picture shown

FAQ

- **How do I know if the guards are installed correctly?**

Ensure that both the front and back guards are aligned properly with the door and all thumb screws are tightened securely.

- **Can I use other screws if I lose the thumb screws?**

It is recommended to use the provided thumb screws to ensure proper fit and security.

- **What tools are needed for installation?**

No additional tools are required; the thumb screws can be tightened by hand.
