## Introduction

The wireless Microphone consists of two parts, one is Microphone transmitter, the other one is Lightning receiver.  
(See as below picture)

(Microphone transmitter)

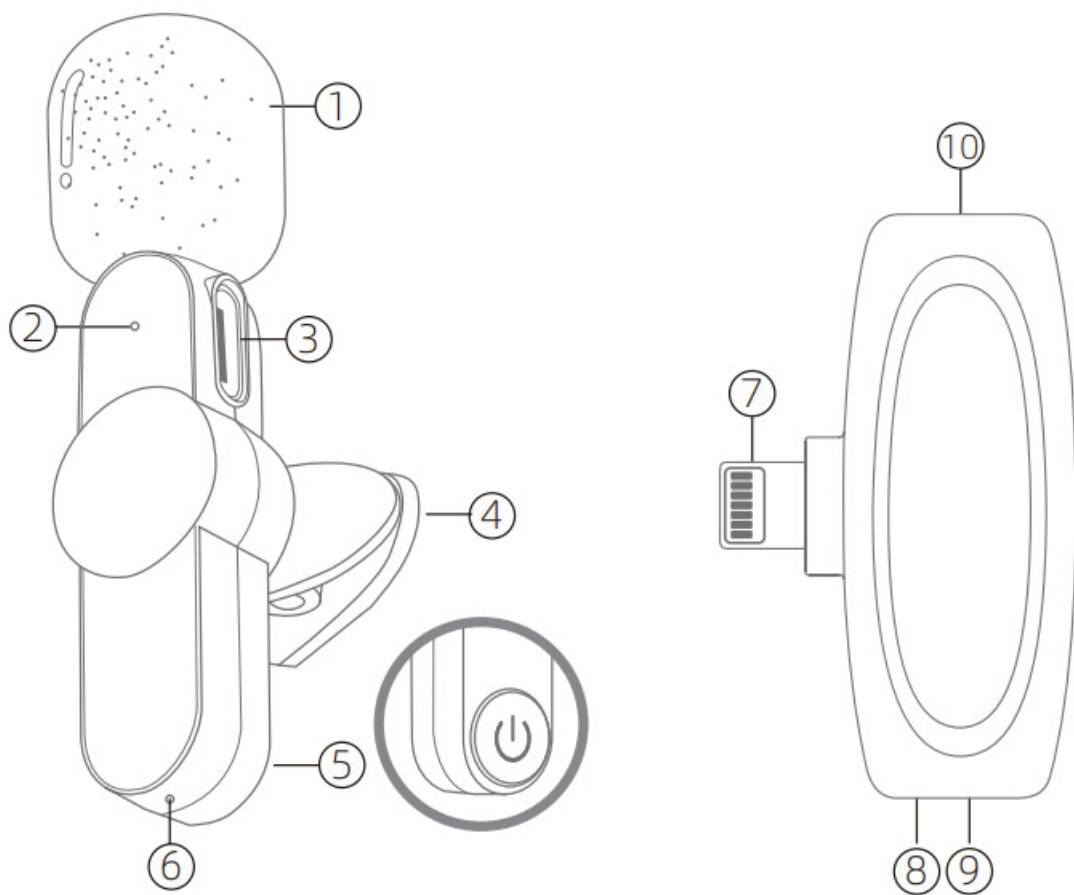

(Lightning receiver)

### Packing List

1. Microphone transmitter
2. Lightning receiver
3. Type-C charging cable
4. User manual
5. Storage bag

### ID Diagram

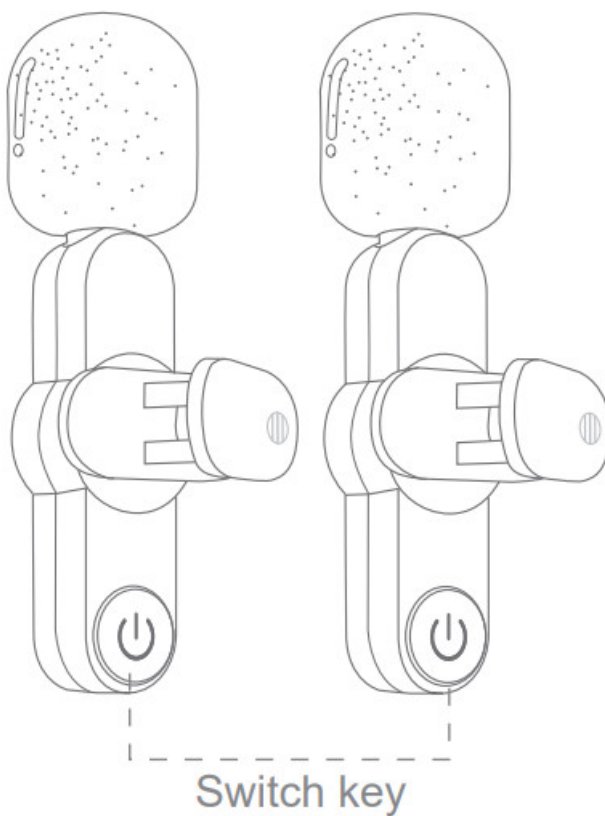

1. Windproof net
2. Microphone indicator
3. Microphone Type-C charging port
4. Microphone clip
5. Switch key
6. Microphone reset key
7. Lightning port to connect phone
8. Receiver indicator
9. Reset key of receiver
10. Lightning port of receiver

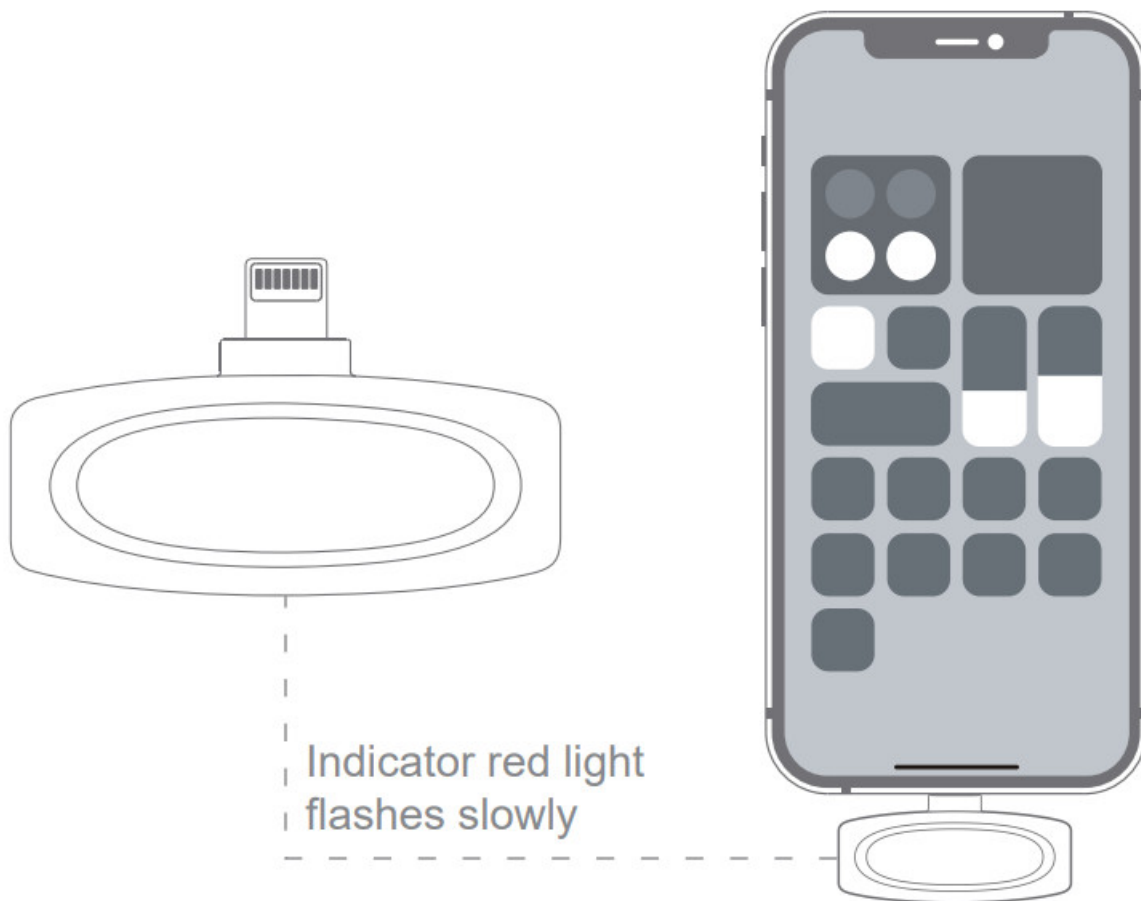

\* The function of above ⑩ will be specifically explained later.

## How to use

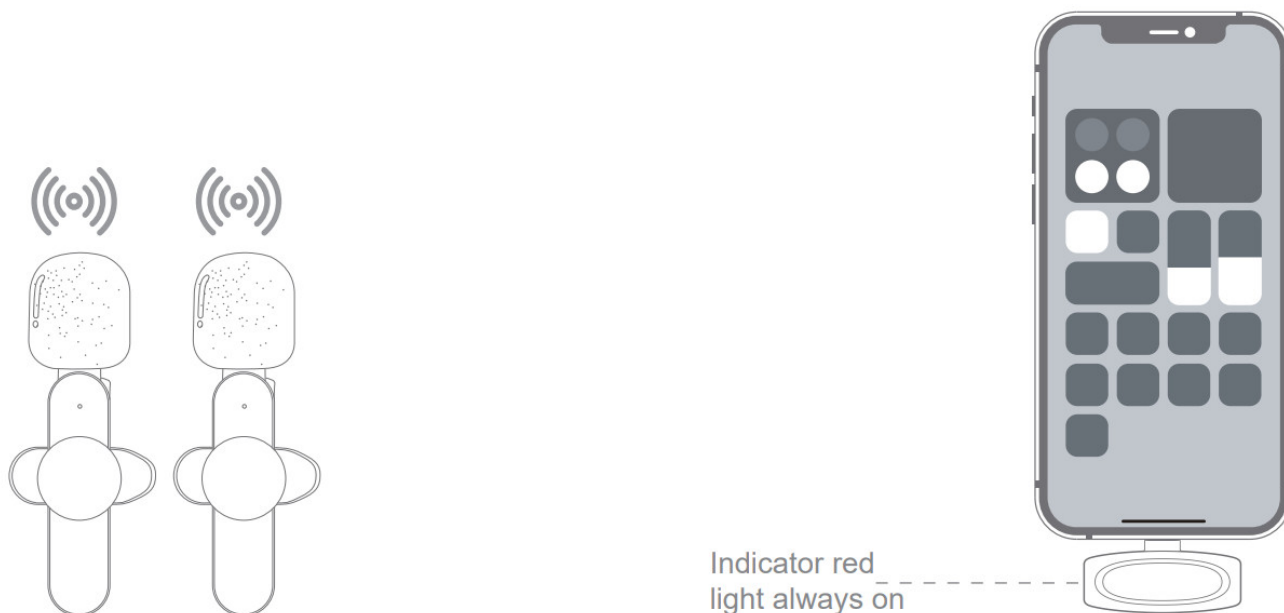

Step1: Plug the receiver into your device, red light on the receiver flashes slowly.

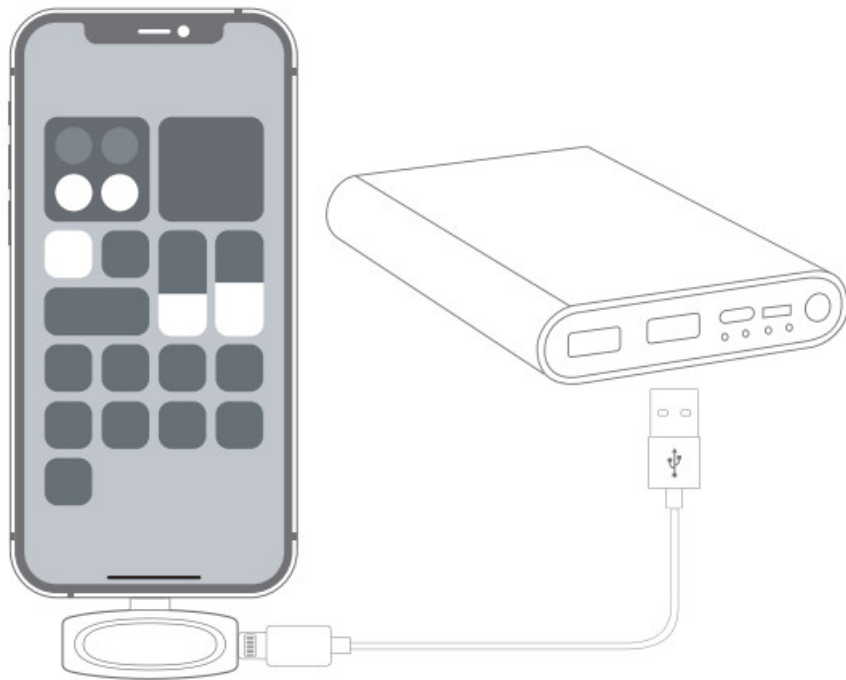

Step 2: Press the multiple function key of two microphones respectively , and the indicator light will be green that is ,the boot is successful.

Step 3: If the receiver is only connected to one microphone,the red light of the receiver will be on for 2 secs every 5 secs.If the receiver is connected to two microphones, the red light of the receiver will always be on.In both cases, turn on the camera or Live APPs of the device such as mobile phone, and then use the microphone to pick up sound.

#### Special Note:

For the use of Ⓜ Lightning port: there is no battery in Lightning receiver , and no need to recharge during live. If the phone is low power during Live, it can be recharged directly through Ⓜ Lightning port.

### Note:

1. Can only listen to video or recording effect after the receiver is pulled out of the device.
2. Only the microphone need be charged by USB-C Cable(Included).
3. Receiver is plugging into device,so it need not be charged,but you can charge your device through Lightning Cable( Not Included).

## Frequently Questions & Answers

1.Q Can it compatible with Android camera or other device?

A:Our Wireless Lavalier Microphone is only for iPhone and iPad with lightning ports.

2.Q:Can it be used as a amplifier?

A:It is a microphone not a loudspeaker, can not enhance the sound.

3.Q:No sound recorded?

A:Please remember to unplug the transmitter,then play your recording.

4.Q:It can only work for 3 seconds?

A:When this occurs,means the device doesn't get paired to microphone,you need wait all light keep green,then start recording.

5.Q:How about the sound quality?

A:Automatic noise reduction function, so that the sound is more ethereal, please be careful to buy if you mind.

6.Q:Charger doesn't plug into lightning receptor?How i use when my device is nearly power off?

A:Our cable is usb-c,it is used for your microphone.While the device is lightning port,so it can't charge your device.Moreover,the receiver needn't to be charged,but you can use your own lightning cable to charge the device,when you are recording.
