BUILDING BASICS

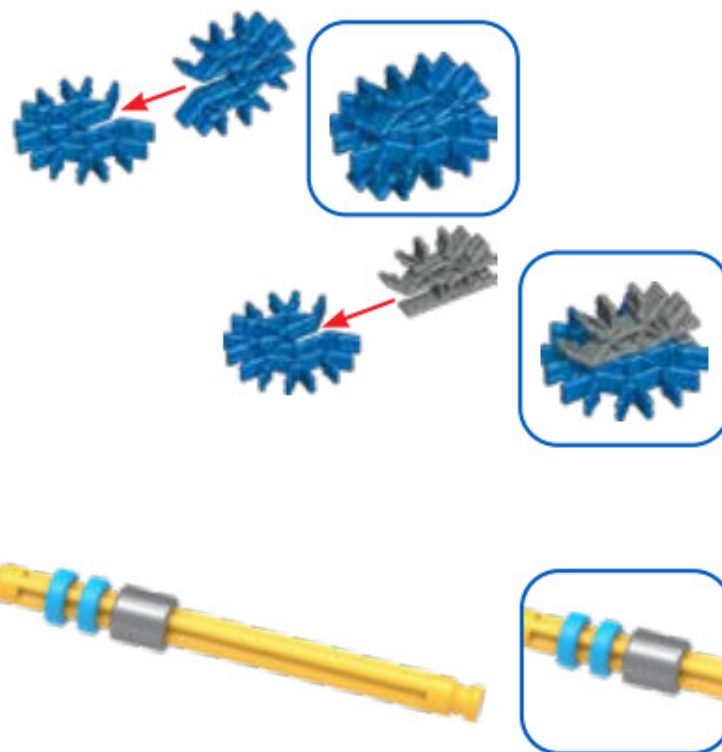

Start Building

Look at the pictures, find the pieces in your set that match and then connect them together. Try to face your model in the same direction as the instructions while you build. The arrows show you where the parts connect, but not all connection points have arrows. Faded colors show you this section is already built.

Connectors

Push these special connectors together tightly until you hear a “click”.

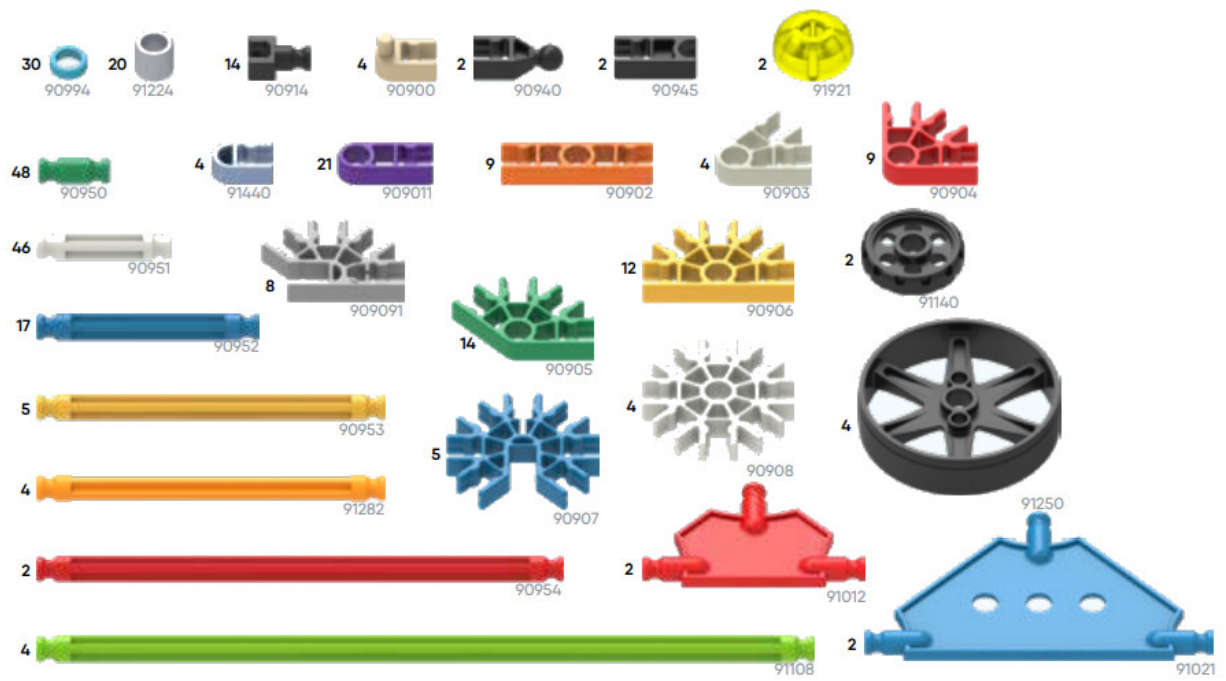

Spacers

Be sure to use the correct color and number of spacers shown.

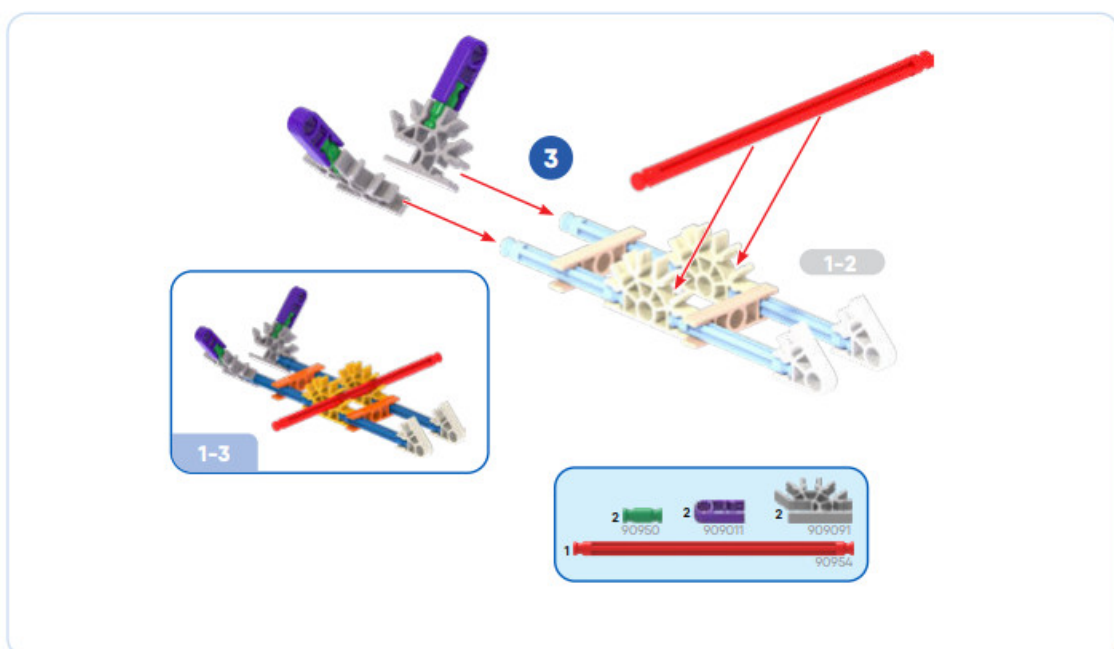

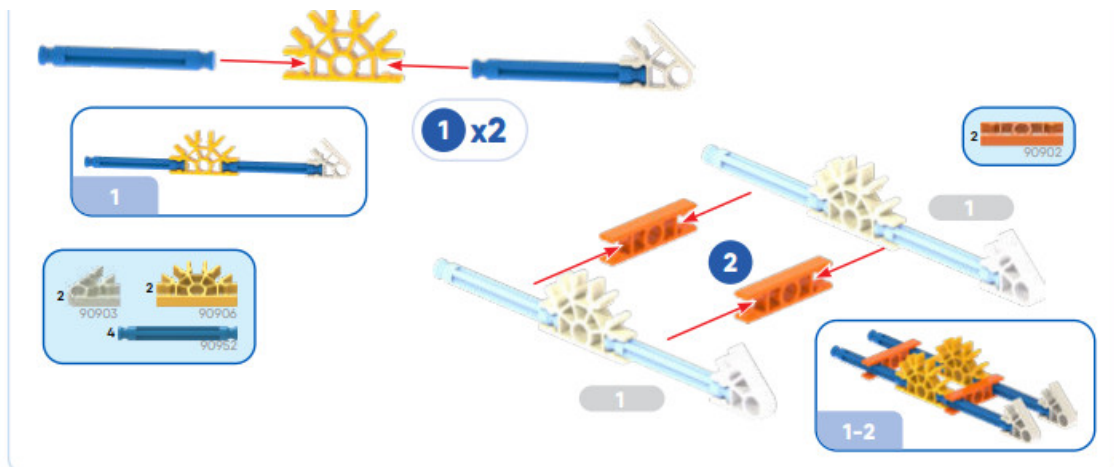

PARTS LIST

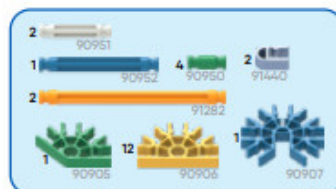

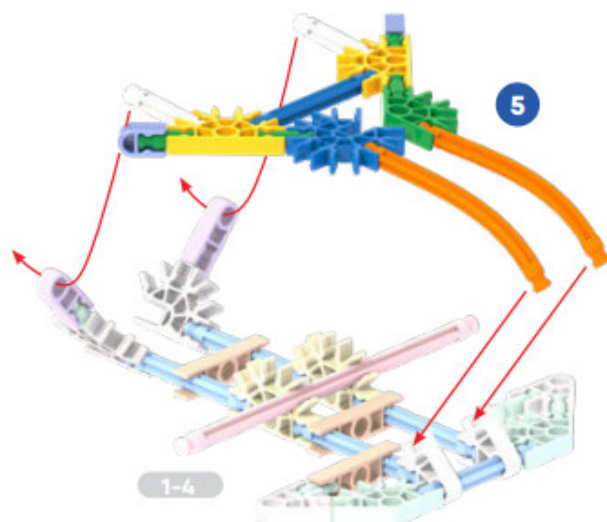

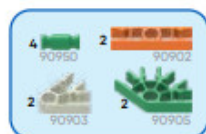

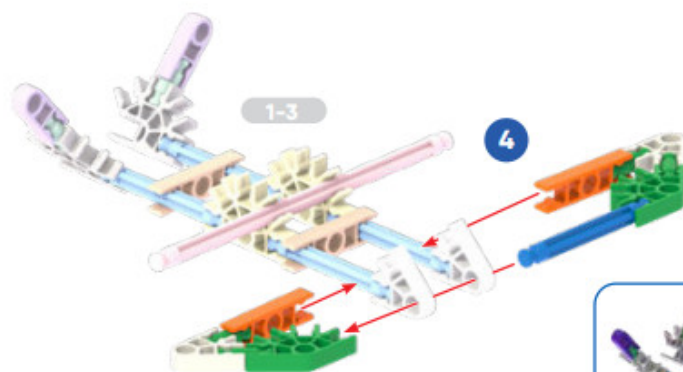

Before you start building, be sure to compare the parts in your set with the parts list here. If anything is missing, contact us using the information on the back cover. We are here to help you!
