**KAPTURE** LINK

kaptur KP1LINKD WiFi Link Device

## Before You Start

Ensure the Kapture App is already installed on your smartphone, and Bluetooth is enabled. The app is available on Google Play or the App Store

## Light Indicator Chart

	<b>Solid</b>	<b>Flashing</b>	<b>Slow Pulse</b>
<b>Red</b>	starting up	pairing mode	wifi on but lock not detected
<b>Green</b>	n/a	connecting to internet or transmitting data	operating normally

## HOW TO USE

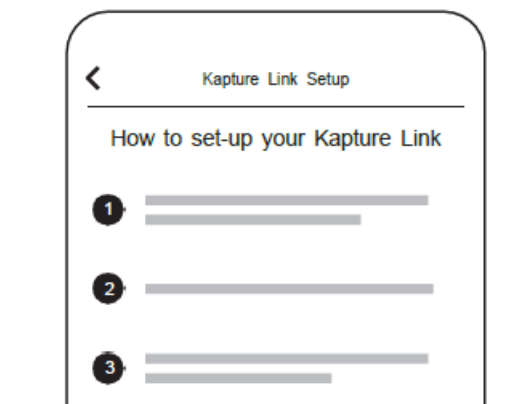

Open the Kapture App and go to Settings at the bottom of the lock dashboard.

Choose Kapture Link under lock settings, and tap the Set up Kapture Link button.

Follow the instructions on the Kapture App to complete installation

## FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful

interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and a human body.
