KarliK Mini Series Illuminating Module LED for Switches

Product Information

The Assembly Manual Illuminating Module LED is designed for switches of the Mini Series. It provides illuminated indication for switches and comes in various colors.

Colours Available

The illuminating module LED is available in the following colors:

- White
- Blue
- Green
- Red

Product Usage Instructions

To use the Illuminating Module LED for switches of the Mini Series, follow these steps:

1. Select the desired color for the illuminating module LED from the available options: white, blue, green, or red.
2. Ensure that the switch of the Mini Series is compatible with the illuminating module LED.
3. Refer to the switch's user manual for instructions on how to install and remove the illuminating module LED.
4. Carefully attach the illuminating module LED to the switch according to the provided instructions.
5. Once properly attached, test the illumination by turning on the switch.
6. If necessary, adjust the position of the illuminating module LED to achieve optimal illumination.
7. Refer to the switch's user manual for instructions on how to troubleshoot any issues related to the illuminating module LED.

ASSEMBLY MANUAL ILLUMINATING MODULE LED FOR SWITCHES OF MINI SERIES
